

CUT RAIL WAGES BUT NO RATES DEMAND OF RAILROAD PRESIDENT

MILWAUKEE, Wis.—A 20 per cent wage reduction is essential to keep the railroad in operation, while reductions in rates need not be looked for, nor are such reductions pertinent to a resumption of business, according to H. E. Byram, Chicago, president of the Chicago, Milwaukee & St. Paul road, who arrived here Thursday for the annual stockholders and directors' meeting.

"We are asking the railroad labor board to permit us to revert to the wage scale in effect prior to last July, when the last increase was announced," Mr. Byram said. "This will mean a wage reduction of about 20 per cent, which we feel is justified by the living cost drop since that time. Labor now represents 67 per cent of our total operating expense."

Acquisition of the Chicago, Terre Haute & Southeastern road, before the stockholders' meeting was affirmed. The proposal had already been approved by the directors. In brief, the terms of the deal, according to Mr. Byram, provide leasing the road for 999 years, with the option of its purchase at an annual rental of \$850,000. The road is 341 miles long, and is valued at \$20,000,000. It taps the coal supply of the Chicago, Milwaukee & St. Paul road.

Directors whose terms expired as well as all officers, were re-elected Thursday.

WHY THERE ARE SO MANY JOHNS

In the early days of the Christian era it was a very common thing to make a pilgrimage to the Holy Land, being an evidence of Christian devotion. It was also the custom for those pilgrims to carry with them a bottle for the purpose of bringing back a quantity of the water of the Jordan which was used for baptismal purposes. Happy was the mother who could secure a few drops of that water with which to baptize her child. All boy babies who were thus favored by fortune were invariably named John, after John the Baptist. It would seem that the world had gone John crazy. So common did this custom become that it was necessary to adopt various methods of distinguishing one John from another. Hence, the origin of Littlejohn, Pettyjohn, Michaeljohn, Upjohn, Downjohn and Benjohn. The latter is the world from which the name of the immortal Rungtun was corrupted. Upjohn lived in the mountains and Downjohn in the valley. The other Johns are self-explanatory.

POLITE TO THE LAST DITCH

She was a dear old lady, but, like us all, she had her faults. She was just an ordinary railway conductor, so he had his faults. "I say, porter," she said to him, as she was getting into the train, "does this train stop at Serogsville?" "Yes," respectfully replied the conductor.

At the first station she poked her head out of the window and inquired: "Is this Serogsville?" Upon the conductor's replying that it was not, she withdrew, but repeated the annoying question at every station—fifteen in all—until Serogsville was reached.

At Serogsville, being told that she had reached her destination, she came out with another question, which she must have been keeping up her sleeve:

"Is it raining, porter?" "No, ma'am," the long-suffering conductor replied very quietly. "It's raining water."

Accidents on French Railroads. A great increase has been noted during the past few years in the number of accidents happening on the railroads of France. This condition is said to be due to the inefficiency of the labor now available, and also to the law limiting the hours of labor, which makes it difficult to secure a sufficient number of experienced operatives.

COBBLER TO SIX PRESIDENTS

Cobble F. Summers of Washington is fixing President Harding's golf shoes. He was cobbler to Presidents Cleveland, McKinley, Roosevelt, Taft and Wilson.

Public Debate

BECK ON FILLED MILK
House of Representatives, U. S.
Washington, D. C.
May 10, 1921.

La Crosse Tribune, La Crosse, Wis.

Gentlemen: I notice an editorial appearing in a recent number of your paper in which a defense is made of the manufacture of filled milk. This is the manufacture of a milk which they utilize as a feed for hogs. You place with the sentence: "There is just as good reason for the law-makers to outlaw the creameries in the interest of the consumers as vice versa." I wonder if this editorial was written with all the facts before the writer. You say that these condenses furnish a profitable market to 25,000 farmers. This is not in accordance with the facts as I think you will find upon examination. To begin with, the cost of the condensaries to manufacture is the pure condensed milk \$2.10 a hundred pounds for milk. 230 pounds of whole milk make 100 pounds of condensed milk. The cost of 100 pounds of pure condensed milk therefore amounts to \$4.41.

Many of the condensaries are buying skimmed milk at 25 cents a hundred pounds. To produce 100 pounds of filled milk requires 235 pounds of skimmed milk, and 7 1/2 pounds of coconut oil at 15 cents a pound. This makes the total cost of 100 pounds of filled milk amount to \$1.70, or 27 1/2 cents less per 100 pounds than it costs to produce 100 pounds of pure condensed milk. This means that filled milk can be put on the market at less than one-half what pure condensed milk can be sold for. In only two instances, however, did the Wisconsin state inspector find that this milk was being sold at less than pure condensed milk, and the difference in price was very small.

Milk is worth more on the other hand, to feed to calves or hogs than 25 cents a hundred pounds even at the

present low price for hogs. Again, many of these condensaries are buying whole milk at \$2.10 a hundred pounds, and are skimming the butter fat out of it, which more than pays for the milk, then they add coconut oil and make the skimmed milk over into filled milk at practically no cost whatever.

I have a letter that is sent out by one of the manufacturers of filled milk to retail clerks, in which clerks are offered a bonus on the sale of each can. The clerk is thus induced to push the sale of filled milk in preference to whole milk, and the wide margin over

40,000 MEN OUT
IN PAPER INDUSTRY
ALBANY, N. Y.—Approximately 40,000 men in all branches of the paper-making industry now are on strike in the United States, Canada and Newfoundland. It is estimated by J. T. Carey, president of the International Brotherhood of Paper Makers, one of the organizations which has called its membership from the paper plants to enforce a demand for a ten per cent increase in wages.

It has been estimated that one Iceland waterfall could be made to yield 60,000 horsepower and another 50,000.

ALL DENTAL WORK PAINLESS TO YOU

DR. WATTERSON

Peterson's Ointment Best For Eczema

First Application Stops Itching of Eczema, Salt Rheum and Piles

Cure Chafing Discomfort in Five Minutes

"Live and let live is my motto," says Peterson of Buffalo, "Druggists all over America sell PETERSON'S OINTMENT for 25 cents a large box and I say to these druggists: If anyone buys my ointment for any of the diseases of ailments for which I recommend it and are not benefited, give them their money back."

"I've got a safe full of thankful letters testifying to the mighty healing power of Peterson's Ointment for old and running sores, eczema, salt rheum, ulcers, sore nipples, broken breasts, itching scalp, chafing and blisters, itching and bleeding piles."

John Scott, 283 Virginia Street, Buffalo, writes: "Peterson's Ointment is simply wonderful. It cured me of eczema and also piles, and it did it so quickly that I was astonished." Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.

COUNTY CONVENTION OF SUNDAY SCHOOLS OPENS NEXT SUNDAY

Interdenominational Gathering Will Meet in First Baptist Church all Day.

The La Crosse county interdenominational Sunday school convention will hold an all-day session Monday in the First Baptist church. All phases of Sunday school work from the smallest children's class on through the older children, young people's class to men and women in the church class will be discussed. The program for the day is:

Morning
10:00—Devotional, Rev. E. C. Dixon.
10:15—Methods for Enlisting Our Boys and Girls For Christ and the Church, Miss Borg.
10:30—"The Vacation and Week-day Schools of Religion," Rev. C. C. Bouslog.
10:45—"The Master Workman," Miss Mabel Bailey, superintendent of the children's division work for the Wisconsin Sunday schools.
11:20—"Administering the Church School," J. L. Rogers, secretary of the Wisconsin Sunday School association.
11:30—Roll call of county and district officers and reports of county officers, announcement of committees.

Afternoon
1:30—Devotional, Rev. T. Knudsen.
1:45—Roll call of schools, state workers; "The County Association Week," J. L. Rogers. One minute reports of state Sunday school convention and state officer boys' conference and girls' conference by delegates.
2:15—Sectional meetings.

Children's Division
2:30—Trade roll.
2:45—Primer plans. A worker of the First Methodist.
3:00—Children's Division Stand-ards, Miss Mabel Bailey.
3:15—Junior Methods, Mrs. Partridge.
3:30—"Problem Period," conducted by Miss Bailey.

General Section
3:50—"Workable Plans For Superintendents," Mr. M. Stenerson.
4:15—"Our Young People's Organization," Rev. R. H. Clarke.
4:30—"Men and Women in the Church School," Mr. J. L. Rogers.
4:50—"The home and extension department."
5:10—Conference conducted by state worker.

Evening
Presiding (newly elected president).
7:30—Devotional, Rev. C. Shaver.
7:45—"The Church and Her Children," Miss Mabel L. Bailey.
8:15—"Practical Christianity," J. L. Rogers.
These meetings are all open to the general public.

American Literacy
Fifty thousand of our million 18-year-olds do not speak any English at all, says Dr. Winthrop Talbot. Among the million youths physical defects are general, due in large measure to ignorance. Two hundred thousand of the million would be rejected as unfit to serve the country because of extreme physical, mental or mental defects. We certainly cannot concentrate ourselves upon any alarmingly high standards or effective results in our schooling of youth in America this far.

MAN O' WAR GREET'S SUNDAY

Billy Sunday, evangelist, holding a revival in Cincinnati, recently paid a visit to Man o' War, race horse wonder, at Lexington, Ky. They got real chummy, as the picture shows.

The Barrier to Mystery Land
The Caucasus between Europe and Asia has been traversed to a limited extent for ages but there are only two known passes. Beyond these mountains, at one time, all was mystery and fable, and for that reason the ancients made the Caucasus the scene of much mythological activity and the home of many marvels. They called the country Colchis, and it was there that Jason and the Argonauts found the Golden Fleece. Prometheus

was chained to one of the peaks by the gods to punish him for giving fire to the mortals.

TREES THAT HAVE FIGURED IN HISTORY

The American Forestry association has announced a list of trees that have been placed in its hall of fame for trees with a history. The idea is to preserve famous historical trees to mark the dates that had a great influence on American history, such as the arrival of John and Charles Wesley in America. The tree under which Wesley preached is an oak tree still standing on St. Simon's Island. The Webster tree is the tree on which the great orator hung his sycamore when he finally decided to go to Dartmouth college. To mark the 115th anniversary of the pathfinding expedition of Lewis and Clark, a tree has

been selected where they held one of their first councils with the Indians after leaving St. Louis. The tree was 150 years old at least before Lewis and Clark camped below it. Nominations to the Hall of Fame are made by various associations all over the country.

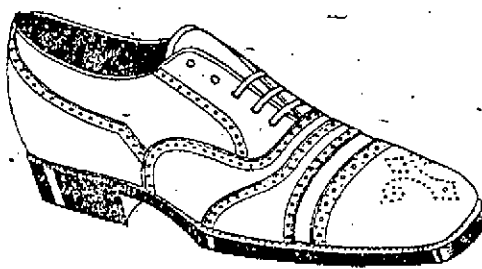

The cow of the water buffalo gives exceptionally rich milk.

Medals For Long Service
Belgian workers who have served long in one occupation are being given "Industrial decorations" by the Government, first-class for 25 years' service, or 30 years of office work, and second-class or 25 years.

Gas Drives Away Rats
The exhaust of an automobile has been successfully used in driving away rats which resisted all previous efforts. The gas was turned into one of the rat holes and the rodents scampered out of others.

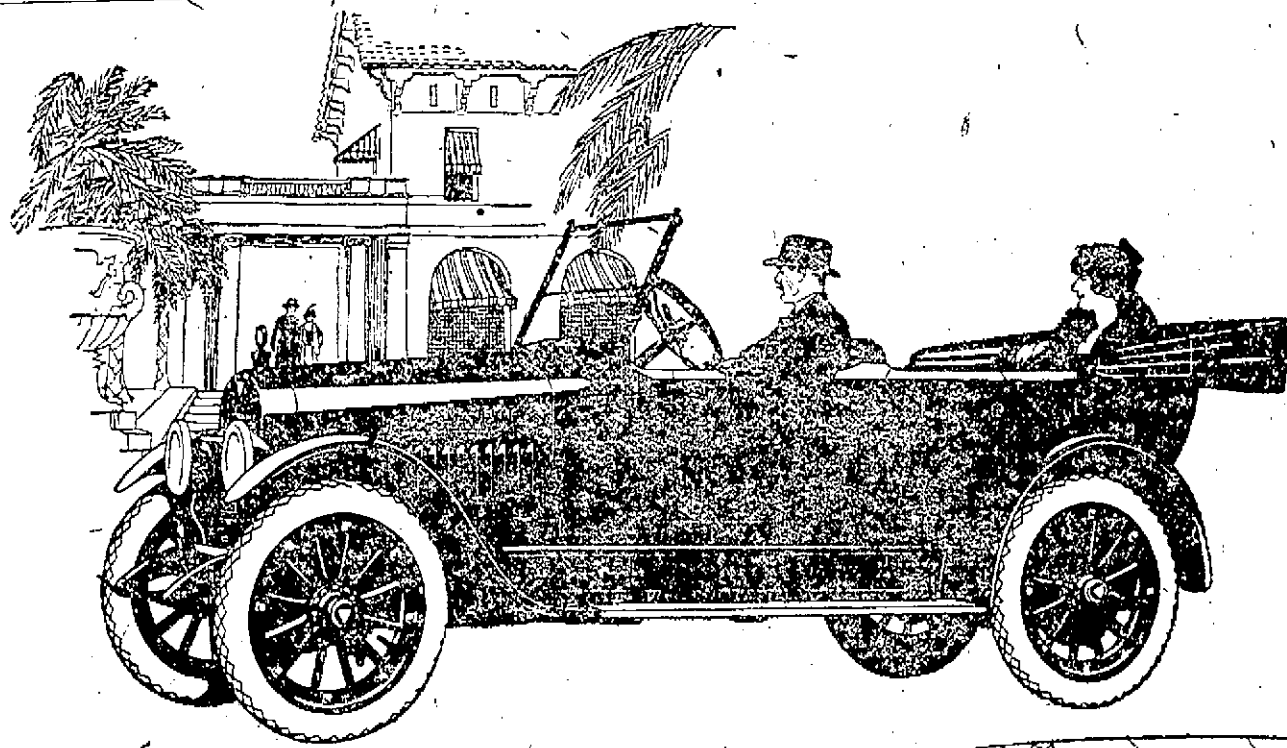

OSHKOSH B'GOSH OVERALLS

If it isn't in the Denim
Then it isn't in the Overall

OSHKOSH B'Gosh Overalls are made of denim that will not fade; that is shrunk before cutting; and that wears and wears. By far the best available, it is made into Oshkosh B'Gosh Overalls only. So insist on them. They must make good or we will.
OSHKOSH OVERALL CO. Oshkosh, Wis.

P.S. BE SURE THE TICKETS READ:
"Oshkosh B'Gosh, Lot 101, 201, 301, or 801." Insist on it. Get your money's worth.

A Hudson Advantage That is Distinctive

Its Smoothness and Ease of Operation

Hudson owners tell us they most appreciate the utter forgetfulness of mechanism they are permitted in their cars.

Neither sound, nor the lapse of any function calls it to attention. Even minor adjustments, which are annoying, though not costly, are almost never necessary. And command of the controls seems intuitive—hardly needing conscious direction.

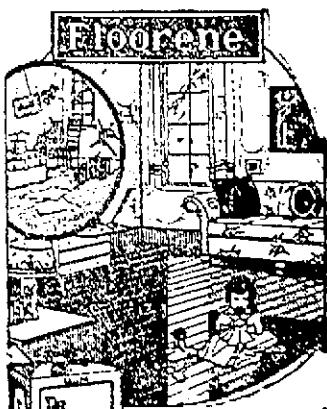

Men say the Hudson Super-Six requires a minimum of care with years of smooth, dependable, punctual conveyance, without default or absence from service.

And we have a gratifying pride in knowing that more than 100,000 owners drive Hudsons, without envy, we believe, of any other car, no matter what its price.

Beautiful Floors

Beautiful floors contribute a great deal to the creation of artistic and homelike interiors. Old interiors which have become shabby can be completely transformed and made more attractive than ever.

The first essential is a beautiful floor, and beautiful woodwork. FLOORENE, the durable varnish, will put warmth and life into the painted finishes of your home. It will put a fresh glow on the floors—new life in your furniture and in the woodwork of your rooms.

FLOORENE is the varnish which painters use when they want to give patrons a better job. It is the varnish which the house-owner who likes to create his or her own ideas, can use with perfect results.

FLOORENE comes ready to apply—and easy to put on, too. It can be cleaned with water and a mop or a damp cloth.

Include FLOORENE in your spring home-cleaning. Tell your painter you want it, or ask the dealer for it.

308 So. 4th St., Opposite Market Square

U. S. WILL HAVE TO MEET LAZAR DEFICIT DECLARES CUMMINS

Alternative is to Find Means of Increasing Revenues and Cutting Expenses

RAIL OFFICIAL PRESENTS TABLES OF OPERATING COSTS

Increased from Three to Six Millions in Three Years

WASHINGTON, D. C.—Unless some way is found to increase revenues and reduce expenses, the railway deficit will have to be met from the national treasury, Chairman Cummins of the Senate Interstate Commerce committee, declared Friday at hearings on the general railway situation.

A table showing what sums had been expended for railway operating expenses and taxes from 1917 to 1920, inclusive, was submitted to the committee by Julius Kruttschnitt, chairman of the board of the Southern Railway, who appeared for conclusion of his cross-examination in connection with the committee's inquiry into the railroad situation of the country.

The total of operating expenses and taxes for the railroads, according to the table, rose from \$2,043,000,000 in 1917, to \$6,047,000,000 in 1920. Salaries of general officers of the railroads in 1920 totaled \$17,119,465 as against \$2,063,755,516 for labor.

The exhibit also showed that whereas in 1917, 55 cents out of every dollar expended for operation and taxes went for wages of employees, this had increased in 1920 to 59 cents. Salaries of general officers of the railroads, it showed, decreased from \$1.15 to 78 cents out of each dollar. The salaries of division officers remained practically stationary.

The table covering this salary and wage distribution of each dollar of money expended was as follows for 1917 and 1920.

	1917	1920
Salaries of general officers	\$1.15	\$0.78
Salaries of division officers	.74	.75
Wages of all other employees	55.57	59.02
Total compensation	\$57.46	\$61.15

PUBLIC DEBATE

SHALL THE PEOPLE RULE?

Editor Tribune and Leader-Press.—The honor the majority's suggestion of a referendum vote in reference to a proposed plan for making further street improvements makes the inquiry, "What is the use of a referendum?" a question which will not only be asked by the voters, but also by the council members.

The common council saw it to refer the matter of daylight saving to a vote of the people. The voters had a right to expect that the question was submitted to them in good faith, and that the council would record a vote in favor of the measure, and that it was of the utmost importance that the wishes of the people as recorded in a referendum vote be respected. That is a matter of principle and really a vital matter.

Let us suppose that the common council should accept the majority's suggestion and submit a referendum plan for street improvements to a referendum. If they sustained his view, he would be justified in feeling that he had secured a victory, and that the council failed to execute the wishes of the people.

The voters who voted for daylight saving may surely feel that they have been trifled with, if the council fails to give effect to their wishes.

If the submission of questions to a vote of the people is worth while, the council must let it go with the people and give effect to their decision. Otherwise, once fooled, the people will rightly give little heed to another referendum, although it might concern a matter of great public value. This is the really serious phase of the matter which ought to be considered by the council, and the council of every member of the common council.

LEX.

PUTS IN CLAIM FOR ATTENDANCE AT FUNERAL

GREEN BAY, Wis.—The having of a funeral for the late Mrs. Frank Stelmach, who lives in the town of Denmark, north of Albert Stelmach, has put in a claim for \$15 against his late uncle's estate in county court here Friday. Attorneys representing the deceased man's estate are contesting the claim.

The Classics

"The young women read the classics." "I'm afraid not," replied the professor. "I'm inclined to think many of them neglect the reading and content themselves with studying the pictures for costume suggestions."—Washington Star.

Looking Ahead

"What is Mr. Gibbles' attitude toward prohibition?" "The usual attitude, I believe, combining resignation with anxious inquiry." "How's that?" "He's satisfied the country is going to stay dry and is devoting his spare time to investigating the present situation."—Birmingham Age-Herald.

Obituary

MRS. MARY KOBLITZ.
Mrs. Mary Koblitz died Friday morning at the residence of her son, J. G. Koblitz, 1635 Mississippi street, of a complication of diseases, after an illness of eight months.

She was born in Germany September 12, 1852, and came to America at the age of 15 and has been a resident of La Crosse since. She is survived by two sons and one daughter, Mrs. John Schnell, of La Crosse, J. G. Koblitz of La Crosse and F. J. Koblitz of Minneapolis. Her husband died five years ago.

The funeral will be held Monday afternoon from her home, 1635 Mississippi street, at 3:15 p. m. Interment will be made in Oak Grove cemetery. Rev. Schmidt of the German Baptist church will officiate.

Fish appeared in the Salton sea only after the Colorado river overflowed into it.

EPISODE IN SCHOOL PAGEANT INSPIRED BY STATUE OF AMERICA IN NEW YORK

FINAL NUMBER IN HISTORICAL SHOW SUMS UP PROGRESS

Marion Jehlen, Lief Neprud and Ray Dunham Pose for Figure in Tableau

The final episode of the historical pageant, "The Growth of Freedom," to be given Friday, May 20th, was inspired by the famous statue of America which stands before the New York custom house and is the work of Daniel Chester French. The sculptor has represented America as a young woman, strong and vigorous, looking forward into the future with faith and hope. Her right hand holds the torch of progress, while peace and plenty are indicated by the sheaf of corn upon her lap. Kneeling at her side is the figure of Lady Justice, holding in his hand the winged wheel which has come to signify material progress. In the background at the right of America is the Indian, gazing with apprehension at the onward march of civilization. This tableau will be posed by Miss Marion Jehlen, who takes the part of America, Lief Neprud as Lady Justice, and Ray Dunham as the Indian. About the concluding episode will be staged.

GAS TANK IS LEAKING WHEN PLANE STARTS

(Continued from page one)

were made against two commanding officers by witnesses. At the same time, testimony was given of careless squandering of public money and the exhibition of slight concern over the safety of pilots.

Refuses to Talk of Case

Although Inspector Claranah refused to comment on the discharge yesterday of C. C. Eversole, one of the pilots who gave the committee much of its most startling information, government officials hinted that they have been what he meant when he referred to the "difficulty in obtaining testimony."

Among the facts disclosed to the committee by Eversole was that the German Junker plane which carried three men to death several months ago left the Chequamegon field with fuel tanks in its gasoline tank and that it was prepared for sailing by drunken mechanics.

Tells of Intoxicated Officers

Eversole also testified that Superintendent E. W. Majors, Assistant Superintendent of the Chicago flying field, and an understudy named King frequently appeared on the flying field under the influence of liquor. He told the committee that on one occasion Majors became so confused from drinking whisky that he ordered the mail planes to leave the field at 5 o'clock in the evening, thinking it was 5 o'clock in the morning.

Another witness was Paul G. Rickel, formerly in charge of the rigging at the flying field in Minneapolis. His testimony was centered about conditions there.

"The mail planes were permitted to leave our field in such poor shape for flying," he told the committee, "that it was common for the men to wager 4-1 bets that the ships would never reach their destination."

Superintendent Also Bets

Rickel said the bets were made with the consent of the superintendent of the field and that frequently the latter wagered small sums for himself. Other stories of midnight orgies, "booze parties" and wild celebrations conducted by air mail officials in Maywood homes were recited by various witnesses.

Big Waste on Junkies

Evidence of woeful waste was given in testimony concerning the purchase of eight German Junker planes at a cost of approximately \$250,000, only later to find that the machines were utterly undepicted by the mail service.

Witnesses testified that five of the Junkers had been totally destroyed, with their destruction seven pilots lost their lives—and the remaining three withdrawn from service because of the refusal of pilots to fly them.

Eversole also declared that not more than three of the twenty-five DeHavilland planes—they were nicknamed "ashtrays"—purchased a year ago are now in the service. They, too, he said, were found useless and their cost a waste of public money.

Propellers Split at Start

Rickel startled the inspectors when he averred that planes left the Minneapolis field with their propellers so badly split that field attendants had been warned to keep away from them lest they should fly off.

Both Rickel and Eversole explained how field officials "passed the buck" on pilots in case of accidents. It is technically required that all pilots leave the field only "under orders." As a rule however no orders are ever given. Because of this, after an accident, the official has the right to say, "Well, the pilot left without orders. He alone is to blame."

The role of witnesses who have already appeared before the board contains the names of Eversole, Rickel, W. E. LaFollette, in charge of the Maywood shops, Superintendent Majors, Chief Mechanic P. T. Jones, and pilots Tex Marshall, Tom Riden, and Dan Kiser.

MOTHER BURIED GOLD

WASHINGTON.—Mrs. Emma C. Bergdoll, mother of Grover Bergdoll, draft dodger, told a house investigator committee Friday that she buried the \$105,000 in gold obtained from the treasury in the fall of 1917. She refused to give any information regarding the burial place, but indicated it was not as far away from Philadelphia as Lagerstown.

The world's population just before the war was estimated at 1,619,000,000.

TABLEAU IN PAGEANT

Marion Jehlen as America, Lief Neprud as Lady Justice and Ray Dunham as the Indian will pose in the final episode of "The Growth of Freedom" pageant.

HE CAN'T EAT ALL OF THEM

Corn Los Angeles Per Package Hungry Kids About Eight Years Not Hard to See

AN EDITORIAL ON ADVERTISING

Suppose a manufacturer has his warehouse full of cornflakes manufactured just as economically as possible. That doesn't end it, does it? These cornflakes may be a very valuable food. But as long as they stay in the warehouse they might just as well not be made at all, as far as hungry boys and girls in New York and Boston and Chicago and San Francisco and Los Angeles are concerned. What is more, they mean very little to the manufacturer who owns them, as long as they stay in the factory.

He can't eat them all himself.

The only way these cornflakes are worth anything to him or anyone else is when they are on their way to the thousands and thousands of people who need them.

In other words, when the people who need food buy his cornflakes the manufacturer and all who work for him can turn around and buy the things they need from other people.

And so these cornflakes start out first to the wholesale grocer, then to the retail grocer and finally to homes—first by the earload, next by the case and finally by the single package, until they appear on the thousands of breakfast tables where the hungry kids are waiting for them.

That's Distribution—getting merchandise from the people who own it, and can't use it, to the people who need it and can use it.

It is not hard to see that the more packages of cornflakes there are sold and shipped, the smaller will be the per package cost of distribution.

If a thousand packages are sold, the per package cost is the total cost divided by one thousand. If ten thousand packages are sold it is the total cost divided by ten thousand. And in that case, while the total cost may be the same or even more, the "per package cost," which is what you pay in the store, is divided by ten.

Now, how can the manufacturer sell ten thousand packages instead of one thousand?

That is where Advertising comes in.

Before women can buy those cornflakes they have to know about them, don't they? And they can't know about them unless someone tells about them, can they? So the very first thing to be done is to see that ten thousands instead of one thousand people know about those cornflakes. Because the larger number of people who know about them, the larger will be the number of people who buy them.

And the larger the number of packages bought, the smaller will be the cost per package of getting the cornflakes through the grocers and into the homes.

Now suppose a man decides to "save money" by not advertising. How are people going to know about his cornflakes? You say he can tell people about them by word of mouth. That's true. He can.

But if he were to start out every morning and tell a hundred people a day about those cornflakes it would take him about eight years to talk to as many people as he could talk to in one advertisement in one issue of a newspaper like this one, for example.

The point is simply that just as the tractor and modern farming methods reduce the per bushel cost of the corn, just as electricity and modern ma-

chinery reduce the per package cost of manufacturing, so by reaching many times more people in a given time, just so advertising reduces the per package cost of distribution.

And since the "cost of Distribution"—an essential as it is—represents the cost of something which you cannot eat or wear or use it follows that the higher the per package cost of distribution the lower either in quality or quantity or both will be the value of the merchandise itself.

The man who says he can save money for you "because he doesn't spend anything for advertising" has paid considerably more per package to get his merchandise to your home than any amount he might have "saved" by not advertising. You can depend on that absolutely.

And it is worth reflecting that if he has paid more to get his merchandise to you there is only one place from which he can get his money back. That is out of the quality of the goods.

It pays to read advertisements. It pays to buy advertised goods from merchants who advertise their stores.

DEFENDER OF CAMERON DAM FREED TODAY

(Continued from page one)

claimed that these men did not properly identify themselves as state officials. They informed him that Sheriff Madden and his men were coming to get him if he did not come out peacefully. On October 7 a bullet wound his leg. The leg was wounded by two thousand bullets fired by the deputies. Oscar Harp, a member of the sheriff's posse was killed. It was for Harp's death that Dietz was convicted and later sent to prison.

Throughout the battle, Dietz remained brave and refused to give up, until it was called to his attention that Mrs. Dietz, who was about to become a mother, might be killed. He then surrendered.

Sentenced to Life

Following his arrest, Dietz was finally given bail but later this was revoked. Without a lawyer to defend him, he went to trial and was convicted of murder on May 13, 1911. Asked by the court why sentence should not be passed upon him, he reminded the jurist that the powerful lumber interests controlled all northern Wisconsin, and that one man's fight against the powerful combine must be feeble and ultimately futile.

For ten years prior to the arrest of Dietz and his conviction for the murder of Oscar Harp, he had been engaged in a row with the Chipewaga Log and Boom Company, which had tangled his life with bitterness. Before the affair was this: Dietz had land beside the creek below the dam on which he placed his garden. Here he would cultivate his soil and sow his seed and await the harvest. But the lumber company controlled the dam. About the time his produce would begin to grow nicely it would be the season for the lumber concern to send their logs down stream to the big saw mills. The dam would be opened at the arrival of the log drive; the land would be flooded and the bit of garden would disappear. Dietz remonstrated against this flooding of his land and the damaging of his crops. The company parleyed with him; promised him remuneration for all loss. Finally Dietz was hired by them to watch the dam at a dollar a day.

Time passed on. Dietz asked for a

settlement of his claims many times but the auditing of the accounts was always a thing of the future. Then Dietz became a law unto himself and took matters into his own hands. The tale of his defense of Cameron Dam is common history. With his trusty Winchester he stood guard over the dam and his property to prevent the floating of the logs down the stream. By his title deeds to his property he claimed that the dam was on his farm and demanded payment for the logs which the company sent over the dam.

The lumber company procured an injunction against Dietz in 1904. The sheriff never was able to serve the injunction. Fortified in his little log cabin on the Thornapple river, Dietz successfully evaded the authorities.

On May 10, 1904, a posse set out to arrest Dietz, but after several shots were fired the posse retired. Another battle took place on July 25th of that year when John Kozisch, a member of the posse, and Dietz's son, Clarence were wounded. The matter was brought before the legislature. During the following administration of Senator La Follette, his brother William Dietz appeared and asked the aid of the legislature, but there was no legislative aid that could be granted.

Following the conviction of Dietz, May 13, 1911, for the murder of Oscar Harp, the Dietz affair became a troublesome case for the Davidson, McGovern and Phillip administrations to reach its final denouement in the Blaine administration. Dietz entered the prison at Waupun May 17, 1911, under a life sentence.

Sentence Commuted

Immediately began the fight of a woman, Mrs. John F. Dietz, for the release of her husband. The Dietz children and their mother traveled over the state explaining in every hamlet and to the newspapers full details of the Dietz affair. The case was carried to the supreme court where it was affirmed May 14, 1912.

The only hope left was executive clemency. On December 30, 1913, just before he relinquished the reins of the executive office, Governor McGovern commuted the sentence to twenty years. A further petition for the reduction of Dietz's sentence was made to Governor Phillip, July 15, 1916. Following long consideration of the case, Governor Phillip denied a further pardon. A new application was presented to Gov. Blaine which was heard May 4, 1921 resulting in Dietz's pardon.

Pleasant the Ghost

"You admit, then, that you voted for a man who has been dead for ten years?"

"Yes," said the practical politician, "but he was an old friend of mine, and I knew that we were carrying out his wishes."—Birmingham Age-Herald.

MANUEL IN LOVE AGAIN, SAYS PARIS

Ex-King Manuel, whose infatuation for the late Gaby Deslys cost him the Portuguese throne, is in love again, says Paris gossip. The girl is Suzanne Lenglen, sensational French tennis player, champion of Europe. Manuel is also a tennis expert and they play partners regularly. Recently they defeated the king of Sweden and partner.

IN THE MORNING PAPERS A Summary of the News

WASHINGTON, D. C.—Germany's acceptance of the allies' reparations demands has stimulated American interest in German trade possibilities. Secretary Hughes said inquiries indicate.

PHILADELPHIA, Pa.—Dr. C. S. Felter left for Palestine to dig for specimens of the early Assyrian chariots used against the Children of Israel in battle.

WASHINGTON, D. C.—Net railroad income for March showed a surplus for the first time since December and totaled \$30,994,065.

CHICAGO, Ill.—True bills charging five labor leaders with conspiracy to extort money were returned by the grand jury.

CHARLESTON, W. Va.—Governor Morgan asked for federal troops to put down the disorders in Mingo county.

NEW YORK.—Germany's acceptance of the allies' ultimatum caused foreign exchange to rise to new levels, British going to its highest since last April.

HONOLULU.—Mrs. Lydia South-

and was arrested on orders from Los Angeles in connection with the deaths, supposedly by poisoning, of her four husbands, a brother-in-law and a child.

A dried residue of syrup, which forms a rare sugar known hitherto only in Asia, exudes from certain fir trees in parts of Canada.

Advertisement GIRLS! LEMONS BLEACH THE SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Orbeum White, which, any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion also as a freckle, sunburn and tan bleach because it doesn't irritate.

AUTOMOBILES FAST BECOMING PUBLIC NUISANCE CLAIM

Problem of Laying Dust on
Dirt Roads Factor in
Health of People

MADISON, Wis.—The automobile is becoming a serious factor in the health of the people of Wisconsin, the state board of health announces following complaints that the dust nuisances are increasing in number.

With the absence of rain the main traveled highways are covered with deep layers of dust which is tossed about by speeding cars. Sprinkling is fast as a means of abating the nuisance, the highway commission declares.

Gravel is the only approved solution, according to the health department. It is estimated that three barrels of oil will cost about \$2 a barrel will suffice to relieve the dust nuisance in front of ordinary farms. When done on a large scale the oiling of dirt highways will cost approximately \$1,000 a mile.

INTERNATIONAL AIR RACES SCHEDULED IN MICHIGAN NEXT FALL

Principal Race is Free-for-all
Classic for the Pulitzer
Trophy

MT. CLEMENS, Mich.—All types of heavier-than-air craft, from the light speedster machines to the freight carrying planes, will be soon in action here September 8, 9 and 10, when the international air races are to be held.

Four races have been arranged, chief of which will be the free-for-all classic for the Pulitzer trophy.

The first event will be for the freight carrying planes capable of 75 miles or more an hour. The course will be triangular, starting at Selfridge field and swinging around at the Aviation country club, west of Pontiac, the Orchard Field, Toledo, and back to Selfridge field. The contestants will cover the course four times, a total distance of 2,014 miles, and the three with the best elapsed time start to finish, will divide \$2,500. First prize will be \$1,000, second, \$750, and third, \$250.

The second event, also to be held September 8, will be for the light commercial planes of the two seated type. It will be flown over the same course as the freight plane event, but the race will be determined on a point system, which will take into account speed in taking off and landing. Winners must have a speed of 30 miles or more an hour. The prize is \$2,000.

On the same course the third event for the passenger plane capable of about 100 miles an hour will be held September 9. The point system of scoring will determine the winner. \$2,500 in prize money is at stake.

For the Pulitzer trophy, final event of the program, September 10, a single race has been arranged. It will be a four times around a triangular course, totaling 1,014 miles. The prize of the Pulitzer will be at Selfridge field, Troy, Mich., and at the end of the race.

And from a speed of 110 miles an hour, expected of the light one-seater machines that will enter the last classic. The shortest elapsed time for the four laps will determine the winner.

The Pulitzer trophy, first held at Mitchell field, Long Island, last year, is expected to attract flyers from Europe as well as from the United States.

CHICAGO, Ill.—Charges of drunkenness, recklessness and inefficiency were made against officials of the air mail service in an investigation conducted by postal inspectors.

COMMITTEE'S REPORT SHOWS NEED FOR IMPROVEMENT AT SPARTA CHILDREN'S SCHOOL

MADISON, Wis.—Need for immediate improvement in the educational training of Wisconsin dependent children at the Sparta school and for closer supervision of children indentured to homes, is stressed in a report of the senate education and public welfare committee sent to the upper house Friday morning.

Investigation of conditions at the school was made as a result of charges by a former employee of moral delinquency among girls who had been placed in farm homes. The committee vindicates the superintendent of the institution and states that "such mistakes as have been made were largely due to the policies outlined by the State Board of Control under laws which were enacted many years ago and which do not meet present conditions."

Proper educational facilities are not provided at the Sparta school, according to the committee report, with the result that the children are often dissatisfied because of a feeling that they are denied an opportunity to improve their condition. Serious overcrowding is also said to have brought about unsatisfactory conditions.

Provision should be made for vocational training to remedy this situation, the report brings out. It was found that an outstanding opportunity exists for establishment of practical training which would create an interest in the part of the children and give them the chance to learn a remunerative trade.

The state board of control and its agents have not given proper cooperation in the matter of punishing persons guilty of offenses against the wards of the state who have been indentured, and have not been sufficiently active in taking the initiative in bringing about the conviction of persons guilty of such offenses, the committee reported.

To remedy this situation it is recommended that thorough investigation of the character of homes to which children are indentured should be made in each instance. These homes should be inspected two or three times a year by agents of the board of control to make sure that children are not being exploited, the senators point out.

Delinquent children committed to the institution have sometimes been reminded of their past faults and shortcomings by those in charge, according to the report, a condition that should be remedied in order that all

port in bills, which will cover their recommendations, to the senate.

Burn Plane 2500 Feet in Air

A serviceable airplane was recently burned in mid-air for the purpose of the moving picture man. The machine was saturated with oil before the start and at an altitude of 2500 feet it was fired by means of ignition bombs. The aviator reached the ground by means of a parachute.

Cotton Pests Overcome

There has been a 70,000 drop on the Sea Island cotton crop in the past two years owing to the operation of pests but this has been overcome by a new variety of cotton known as the Meade, which is pest-proof, so far.

It is used by the government and the people. It is used by the army, navy, and air force. It is used by the government and the people.

COMMITTEE URGES EFFICIENCY AGENT FOR COMMISSIONS

Would Bring About Better Correlation of Work Declares Report

MADISON, Wis.—An efficiency director, to bring about better correlation of work within departments will be recommended by the special legislative investigating committee for elimination and consolidation of boards and commissions, in its second report to be made in a few days.

This officer would be under the secretary of state as an efficiency expert. He would work to eliminate overlapping of functions within the departments and to cheapen the cost of administering the state government.

A serious fight is expected over three of the seven committee bills reported into the assembly yesterday morning when they come up for action next week. There will be opposition to the move to abolish the present three-man tax commission, and the state board of education and vocational education.

Some members express themselves of the opinion that it will be difficult for a single man to administer the tax commission, contending that some of its functions are quasi-judicial. Others are equally of the opinion that fully as efficient an administration could be brought about by a single commissioner.

If accepted the changes in the commissions will take effect February 1, 1922.

To Prevent Sneezing

As many know sneezing may be averted by pressing firmly upon the upper lip with the fingers. The "why" of this is that by so doing we deaden the impression made upon a certain branch of the "fifth nerve," sneezing being a reflex action excited by some slight impression made upon that

nerve. Proof of this is seen in the fact sneezing never takes place when the nerve mentioned is paralyzed, even though the sense of smell be fully retained.

Sound Amplifiers For Heart
The beating of the heart is made audible to a large gathering through the use of sound amplifiers.

We Are Offering Some Wonderful Values in

Coats, Suits and Dresses

We feel confident if you were here to see the merchandise we would sell you as they are bargains you will not resist if you see them. Come, look them over.

BARGAINS IN SUITS

As in former years, our policy has been not to carry over a single garment, therefore we have forgotten cost and divided our stock for quick selling into five lots. These Suits formerly sold from \$25.00 up to \$99.50, and everyone a good value at its former price and will be closed out at the following prices:

LOT 1	LOT 2	LOT 3	LOT 4	LOT 5
Consists of all Suits that sold up to \$35.00, for—	Consists of all Suits that sold up to \$49.98, for—	Consists of all Suits that sold up to \$65.00, for—	Consists of all Suits that sold up to \$85.00, for—	Consists of all Suits that sold up to \$99.50, for—
\$19.98	\$29.98	\$39.98	\$49.98	\$69.98

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes and the calluses, without soreness or irritation.

Walk-Over

Harmonize with Dress

Shoes that are ordinarily sport shoes are coming into every-day use. They are so practical. The way Walk-Over makes them—without losing the feminine lines of grace and daintiness—has brought Walk-Over sport shoes into great popularity. They are a specialty in the Walk-Over shop.

A NEW STRAP EFFECT

For the woman who wants her pumps to be different, and whose ankles look well with some decoration. It is a relief from the plain single-strap pump and looks particularly attractive with fancy hose. **\$8.00, \$9.00 and \$10.00**

NOBBY OXFORD

Splendid for summer sport wear, with low heels giving the ankle good support for long walks. In black or tan. **\$8.00, \$9.00 and \$10.00.**

TUBES REPAIRED FREE!!

On every FIRESTONE INNER TUBE, Hi Test or Regular Grey we sell, we will for one year from date of sale repair all punctures and cuts absolutely free of charge. No strings to this offer.

Firestone prices are lower than others of lower grade. SEE US BEFORE BUYING

ENGLAND IS TURNING EYE ON THE WEALTHY AMERICAN TRAVELER

Millionaire Visitors from These
Shores Promised Much in
Way of Accommodations

LONDON—First signs of spring in England have spurred the transportation companies and the tourist agencies into a fever of expectancy and all eyes are turned toward America which Europe regards as the haunt of the millionaire.

Visitors from the United States are promised much in the way of accommodations, with conditions approximating those in pre-war days prevailing. Hotels and pensions again will leave plenty of rooms on comparatively short notice, and passport ceremonies are slackened.

Incoming passengers are still closely supervised by British port authorities, but the examination is much less exhaustive than last season. Then it was necessary for an American citizen to go to the trouble of getting a passport even when embarking for his native land. Such a procedure is no longer necessary.

Police restrictions in the British Isles also are relaxed, registration being required only if a visitor intends to remain more than 60 days, and railway facilities are greatly improved in schedules and travel accommodations.

At this date, no steps have been taken toward organized welcome for American tourists because it is believed they can be taken care of adequately by the regular institutions for this purpose. No detail will be overlooked, however, it is pointed out, to insure comfort for all who touch British shores this season.

Travelers to Ireland, it is said, will be taken care of as far as it is physically possible under the circumstances.

Tourist agencies are quite frank in admitting that only the well-to-do are financially able to bear the expense of travel at present when a first class cabin ticket costs approximately \$250 one way.

They say the tourist traffic last year was practically without the large numbers of school teachers and professional people who came to Europe formerly to spend the summer weeks in travel and study. These folks, they say, can not pay the prices it is necessary to charge to make the tourist business pay, and there are no signs now that travel will be cheaper in the near future.

It is also believed possible that many persons will be deterred from visiting Europe this summer because of the unsettled conditions of business and of international economic affairs. However, indications are, it is said, that more tourists will want to see Europe in 1921 than can be handled, in spite of the high cost of living. In this connection, the advantage Americans have in view of the favorable exchange is pointed out.

Many ships have been added to the trans-Atlantic service since last summer, and it is estimated that the ship companies will be able this summer to carry one third more passengers than in 1920.

DECLARES TOBACCO LESS HARMFUL THAN TEA, COFFEE, LIQUOR

LONDON—Tobacco is the least harmful of the "four social poisons," tea, coffee, tobacco, and alcohol, according to Sir James Cantlie, the eminent surgeon.

"Smoke the same amount of tobacco every day," said Sir James, "and the heart will become accustomed to a certain amount. If one smokes less one day than another, he feels the same effect as much as if he had smoked more."

He said three days' abstinence from smoking would entirely free the system of nicotine. Sir James condemned the cigaret.

KENTUCKY WOMEN ASK STATE TO BAR BETTING AT RACES

LOUISVILLE, Ky.—Adoption of a resolution calling upon the state legislature to prevent legalized betting on horse racing, was adopted by the Kentucky Federation of Women's clubs in annual convention in Danville, Ky., Thursday, and was said to be the first victory in a determined fight to have the Pari-Mutuel betting machines abolished and put gambling on horse races in the class legally with other gambling.

INVESTIGATE SUICIDE
OF GREEN BAY GIRL
GREEN BAY, Wis.—The coroner's jury, which was called by Coroner Gregory, began to investigate the death of Henrietta Schneider, 10-year-old high school student, whose body was found in Fox river Thursday morning after having adjourned Thursday to permit an autopsy by Drs. R. C. Buchanan and J. C. Chalmers.

SEVENTH DAY ADVENTISTS
The subject for this Sabbath's consideration by the superintendent, Mrs. Thornton of the Sabbath school will be "The Lord's Garden and Work in the finishing of the Gospel Message." Sabbath school meets as usual at 11 p. m. just after church service to which all are given a cordial welcome.

The Birds of South America
There is a greater variety of bird life to be found in the countries of Central and South America than in any other part of the world. This is attributed by some students to the presence of the Andean range of mountains which covers a suitable asylum for all kinds of bird life no matter what kind their demands may be.

The next war won't be fought in the air. It will be fought, as usual, in the tax assessor's office.—Detroit Free Press.

Summer Weather Means Much to Misses Who Have Plenty of Tub Frocks

If the new Tub Frocks which have just been unpacked have their way, life for Misses of 2 to 16, will be one ruffle after another this summer. Many of the organdy modes have girlish looking skirts and those of dotted Swiss not to be far behind, are just as enthusiastic, though less prodigal in their use, employing ruffles of various sizes as trimming on tunics, sleeves and on graceful transparent fichus. All the colors so becoming to young girls of blonde or brunet complexion are here and the prices are so tempting that mothers will find it no hardship to make little daughters happy with several Frocks of different styling.

A comprehensive assortment of dresses in gingham, chambrays and percales will also be found in our Junior Department. Sizes **\$1.50 to \$27.50** from 2 to 17 years, at

Imported Organdies at **\$10.50 and \$14.50.**

JUNIOR DEPARTMENT—SECOND FLOOR.

BOYS' HATS and CAPS

The new Straw Hats are here. Light colors, blacks and browns. Rah-rah styles with turn down brims or with brims turned up. **50c up to \$1.98**
Priced from

Wonderful assortment of Caps, in blue, brown, tan and grey mixtures, priced from **75c to \$1.98**

BADGER HIGHWAYS CLASSIFIED UNDER SENATE ROAD BILL

Measure Providing for Regulation of Motor Traffic En-grossed Thursday

MADISON, Wis.—Regulation of motor traffic and the division of state highways into three classes was en-grossed by the senate Thursday when it passed the committee on high-ways bill classifying state roads.

The bill provides that no truck or trailer weighing more than 12 tons, including load, shall be allowed on class A highways; more than seven tons on class B highways; and more than three and one-half tons on class C highways. Authority is given county highway commissions to enforce the law.

This bill was requested by A. B. First, state highway engineer, who declared that regulation of this kind was necessary to keep heavy trucks from destroying the more lightly con-structed roads.

The lower house also passed a group of appropriation measures, among which are the budget for the State Institute of \$200,000 for the Wisconsin Mining school, at Platteville for \$70,500; for the real estate boards \$27,500; for the Wisconsin deer waterways commission \$12,500.

Assemblyman Wettenhaller's bill, prohibiting marriages of Wisconsin residents in other states to evade the divorce law was killed in the senate after an amendment by Senator Roethe providing for the registration of such marriages with the county clerk had been defeated 24 to 4.

Hasley's eight-hour printing bill finally passed in the assembly, 52 to 21, and will now go on to the upper house. This is the only eight-hour measure passed by the assembly this session.

The bill prohibiting the manufac-ture and sale of filled milk received final endorsement by the assembly, 61 to 10.

Peter Cooper, Handy Man

Peter Cooper who at the time of his death was one of the wealthiest men of his country, was the apostle of thrift in his young days. When he was hardly more than a boy he deter-mined to make a pair of shoes and af-ter dissecting at old shoes he purchas-ed the leather and other materials and made a pair of shoes which he sold afterwards were as good as the average shoes of that time. The foundation of his fortune was made in the manufacture of shoes. He purchas-ed a run-down shoe factory and made such good shoes that he soon worked up a large trade and his product was in great demand for fifty years.

Japanese fairs average two and one-half acres in the family.

HOW IS PRESIDENT GUARDED? THIS SHOWS YOU

You hear a lot about the secret service men who guard the president everywhere he goes. Ever wonder how they work? Look at the photo-graph. The picture was snapped in Washington a few days ago. Pres-ident Harding is in the front car, which is slowly coming to a stop. Note that three secret service men from S. Car 1 have reached the president's car while it is still moving. One has hopped on the running board, another is running up just behind him and the third has moved up on the far side of the car. By the time the president is alighting the secret service men shown stepping out of S. Car 2 will be all around him to see him safely through the crowd. Every time the president goes out in his car the secret service cars are right behind.

His Views
"A 'zoo' is a place to reflect on the superiority of mankind," remarked the bumptious citizen.

"I don't agree with you," answered Mr. Grumpson. "I've never visited a 'zoo' but two or three times in my life, but the thoughts that struck me was that all the animals were at-tending strictly to their own busi-ness and if mankind had less ambi-tion and more consideration for dumb creatures none of them would have been there."—Birmingham Age-Her-ald.

Advertisement AHI EPSOM SALTS LIKE LEMONADE NOW

You can now buy epsom salts without the awful taste and nausea, by asking your druggist for a handy package of "Epsomade Salts" which looks and acts exactly like epsom salts, because it is real epsom salts combined with fruit derivative salts, giving it the taste of sparkling lemonade.

Take a tablespoonful in a glass of cold water whenever you feel bilious, headachy or constipated. "Epsomade Salts" is the much talked of discovery for the American Epsom Association.

Louise Glaum the Famous Actress Says Show Me a Homely Girl or Woman and I'll Show You a Neglected Complexion

With a Soft, Peach-Like Velvety Skin Every Woman Would Be Attractive. Nothing So Good for the Skin as Ordinary Ointment

New York.—The girl or woman who is passed by without a glance of ad-miration has only herself to blame, says Louise Glaum, the beautiful ac-tress now starring in the J. Parker Road in Productions. Through follow-ing the simple combination given be-low it is now possible for every girl and woman to have an attractive, fair-white, beautiful complexion free from wrinkles, blackheads, pimples, coarse or large pores, tan, dark skin, sallowness or roughness. A few minutes' light and morning is all the time required. Just follow the ad-vice of Louise Glaum and the wonder-ful effect of this simple combination will please and surprise you. This method may be used without the least fear of harmful results and will not reduce or stimulate a growth of hair. Here is the formula: Go to any gro-cery store and get to cents worth of baking soda and from any drug store a bottle of Derwille. Then cleanse your skin with a good cold cream (Liska Cold Cream I have found to be the best). Put a little of the ointment in a bag made of cheese cloth, drop on it two or three tea spoons, twenty drops of Derwille and use this the same as you would a wash cloth. Use in con-junction regularly. A large number of the leading actresses of this country now use Derwille in preference to all other beautifiers. Derwille contains no harmful, smart or paining, and white or other dangerous drugs which are out-letted and close the pores, thus prevent-ing them from doing the work nature

intended them to do. It is prepared under scientific sterilized sanitary con-conditions by an expert who has had years of experience in manufacturing beau-ty products. Measured by results you get more for your money by using Derwille than any other beautifier. Ointment when used with Derwille has an astonishing effect. It softens, cleanses and makes strong healthy skin tissues. It brings back to the skin that youthful peach-like coloring, ex-actly normal woman craves. Now that short sleeves are in vogue you will want beautiful hands and arms. There is nothing like oatmeal and Derwille for this purpose. A few weeks use of this combination and your friends will comment favorably on your improved appearance. Those who look old are those with a haggard, loose, wrinkled, muddy skin. Miss Louise Glaum fol-lows this method herself and recom-mends it to her most intimate friends who are just as enthusiastic over it as she is. You can well afford to de-vote a few minutes each day to the care of your skin and if you do you will soon notice a wonderful im-provement in your appearance. Just try it once and note the difference. Use Derwille and you will look ten years younger, will make you look ten years younger.

NOTE—When asked about Derwille one of our leading druggists said, "It is truly a wonderful beautifier, away ahead of anything we have ever sold before. We are manufacturers to refund the money of anyone who is dissatisfied. This guar-antee would not be possible unless the product possessed unusual merit." It is sold in this city under a money-back guarantee by all department stores and all druggists, including Hoeftner Bros. and C. A. Begun.

CHICAGOANS FINED FOR TRANSPORTING LIQUOR FROM SOUTH

CHICAGO, Ill.—Fines of \$2,000 each were imposed Thursday on Wil-liam J. Trudel, George Quinn and Frank McCann, who with "Mike De Pike" Heider and three others were found guilty last March of conspiracy to violate the prohibition laws by transporting \$175,000 worth of whis-key here from Kentucky. The defense counsel requested that the men be fined instead of given jail sentences. Heider and the others were sen-tenced later, having requested a con-tinuation to give them time to raise the money needed for fines.

The Detractor's Work
The detractor may, and often does, pull down others, but by so doing he never, as he seems to suppose, ele-vates himself to their position—the most he can do is maliciously tear from them the blessings which he cannot enjoy himself.—Selected.

World's Greatest Fire
The Moscow fire of 350 years ago is described as the "world's record." In it 200,000 persons are supposed to have perished.

BREAK UP RING OF AUTO THIEVES AND WHISKEY RUNNERS

CHICAGO, Ill.—A ring of alleged automobile thieves and whiskey run-ners operating in Illinois, Wisconsin and Michigan, was uncovered here Thursday by officials of the depart-ment of justice. Fifteen alleged ring-leaders, including a deputy sheriff from Kenosha, Wis., are under arrest. Kenosha and Iron Mountain, Wis-consin, are thought to be the disposal points for the stolen automobiles.

most of which, it is said, were stolen in Illinois and Michigan. With the break-up of this ring, de-partment of justice officials are con-fident they have uncorked one of the biggest automobile theft and whiskey running combinations in the country.

Cyclists Cross Australia

The length of Australia was re-cently traversed by two men on a motorcycle. The trip from Perth to Melbourne was made in 26 days and a large part of the trip was over trackless wastes. The data gathered will be used in the establishment of an air route.

"Bayer" on Genuine Aspirin—say "Bayer"

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin pre-scribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bay-er package for Colds, Headache, Neu-ralgia, Rheumatism, Earache, Tooth-ache, Lumbago and for Pain. All druggists sell Bayer Tablets of As-pirin in handy tin boxes of 12, and bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic-acid.

COMMITTEE O. K.'S FINANCE CLAUSES OF MARKET BILL

Report Allows Full Appropriation Asked by Marketing Director

MADISON, Wis.—Approval was given the financial features of the joint finance committee on Thursday. The measure was divided in two sections by the committee before reporting, the first dealing with the revision of the marketing law and the second with the appropriation.

The full \$125,000 requested by the marketing director and already approved by the assembly has been allowed. This is practically double the appropriation of last year, but requested because of the demand agricultural co-operative associations have made upon the marketing division for help.

There was some discussion as to whether the trade commission features of the bill should be retained, but it was finally decided to report the bill out unchanged. It is not expected that the assembly will offer further objection to the measure. Action of the upper house remains in doubt.

The finance committee also decided to report for passage the teachers' retirement fund bill which would levy a million dollars a year for forty years upon the taxpayers of the state by means of a mill tax upon real estate. Opinion in the committee was evenly divided as to the advisability of passing such a law at this time, although no dissenting voices were recorded.

A contest on the floor is sure to develop, members say, as many legislators object to putting an extra mill tax upon real estate at this time. A surplus upon income has been suggested.

BECKER POINTS OUT IMPROVED CONDITION OF WINTER GRAINS

MADISON, Wis.—The condition of winter grains in Wisconsin improved three per cent during April, due to heavy rains which overcame a previous deficiency of soil moisture and stimulated growth, report of Joseph A. Becker of the co-operative reporting service shows.

In spite of an open winter only an average acreage of winter wheat was abandoned, the reporter announces. The area remaining for harvest is estimated at 77,000 acres or ten per cent less than last year.

Abandonment of rye acreage is estimated at one per cent and the acreage remaining for harvest at 430,000. The condition on May 1 was 91 per cent compared to 88 per cent a month ago.

KELP IS A QUEER GROWTH

There are several extensive establishments along the shores of the Pacific ocean which are devoted to the recovery of kelp and its reduction into such form as makes its shipment convenient. It is sent to factories where many valuable commodities are secured from it.

The giant kelp is anchored to the rocky bottom by a root-like holdfast, from which springs a stem that is sometimes 100 feet long. This stem is hollow for the upper half of its length and terminates in a big bladder-like bulb from which, as it floats on the surface, fronds 50 feet long branch out.

One variety is called "sea otter's cabbage," and is very plentiful in the region of Puget Sound. Another, commonly known as the "sea pumpkin," flourishes nearly as far south as San Diego bay.

GREEN BAY STRIKE SITUATION UNCHANGED

GREEN BAY, Wis.—Northern Paper Mills officials of this city announced no change in the strike situation. Strikers are still picketing the mill, but no disorders are reported. Rumors of the strike settlement this week are still being circulated and have been branded by mill officials and union leaders as false.

The John Hoberk company and the Green Bay Paper and Fibre company plants still were closed.

STEAMER BURNS BUT ALL OF CREW ARE SAVED

BELLINGHAM, Wash.—Twenty-three officers and men of the crew of the steamer K. Mchaska, burned at sea 400 miles off the Alaskan coast on April 14, arrived here Friday on the steamer Catherine. The men were picked up at Squaw Harbor where they were taken after landing from their burning vessel on one of the Shumagin islands. All on board the Kamehatka were saved.

UNIONS TO HANDLE BUILDING MATERIALS

SAN FRANCISCO, Calif.—The San Francisco Building Trades council has voted to enter the building material business. The enterprise is to be financed by the various unions affiliated with the council. Shortage of building materials is declared by the council to be the cause of unemployment in building trades here.

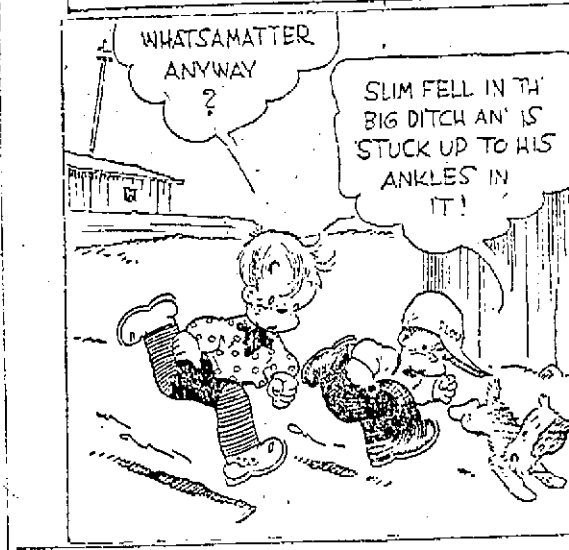

STEFANSSON PLANNING ANOTHER ARCTIC TRIP

PASADENA, Calif.—Another expedition into the Arctic regions in two or three years is planned by Vilhjalmur Stefansson, the explorer, he announced here Thursday night. Despite the discovery of the North pole, Stefansson said, there remains much room for exploration in the Arctic.

Directory of Oil Refineries

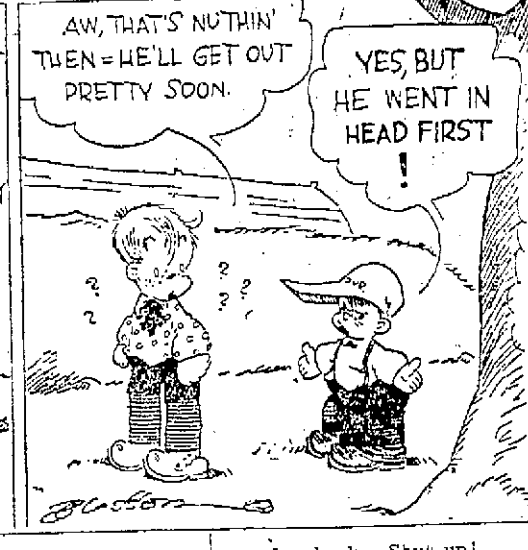

The bureau of oil has prepared a directory of all the oil refineries of this country in which it appears that there are 415 such plants in operation and 44 more nearly completed. The daily capacity of all refineries is 1,888,800 barrels. Texas is the lead with 70 plants having an output of 550,800 barrels. Oklahoma ranks second. New Jersey has but seven plants, but its output is high.

FRECKLES

SLIM IS BADLY IN NEED OF HELP

DOUBLE-JINX DAY HERE, FRIDAY, 13th; BEWARE OF THE LIL' LURKING HCODOO

No, Sam! This is the real jinx day—Friday the 13th. It's a double jinx combination, in fact.

As a starter, La Crosse arose this morning to be greeted by rain, leaden skies and a generally depressed feeling. The weather alone is enough to cause most of La Crosse to go daffy. Think of the fishing trips that are put on the fritz.

Shortly after 7:30 a. m. today reports began arriving at the Tribune and Leader-Press office from local astrologers who had carefully perused the stars and cast horoscopes. Most of the first casts turned up two fives and on the second a five and a deuce.

swer her back. Shut up! Arguments on prohibition with your landlord, who happens to be a teetotaler, are had form.

Today will be tough on George H. Clark and J. P. Stras, who cracked the straw hat season wide open for several days by appearing downtown in nice new, shining straw hats.

Theda in the Running Investments in stocks paying more than 100 per cent a month in dividends are not advised.

Venus is the ruling planet, with Theda Bara running a poor second. This is a warning to lovers. Also to married folk. Don't get married Friday. Don't get divorced. Don't fall in love.

As you were!

Billiards Keep Him Young at Ninety Dr. Thomas W. Donohay, a practicing physician of New York city is ninety years old and despite this he manages to put in a couple of hours each day at the billiard table to which he attributes to a measure his fine physical condition.

EXPECT MANY FOR STOCK COMPANY'S AFTER-SHOW PARTY

Miss Sitzer and Supporting Players to Meet Patrons in Stage Reception after Matinee

That the Beach-Jones Stock company party for Saturday afternoon, when all patrons of the matinee will be guests of Miss Eloda Sitzer and her supporting players after the show at an informal reception on the stage, will be well attended is indicated by a heavier than usual advance sale of tickets for the performance.

Plans have been made to see that all of the guests meet all of the actors, refreshments will be served and otherwise a pleasant social time is planned. "We want to get acquainted with our friends as people," said Miss Sitzer. "They have been very kind to us in La Crosse as spectators and patrons, so kind, indeed, that we feel personal friendship would be pleasant to both sides of the footlights. Stage folks are not any different from anybody else in their hunger for friendliness, and in La Crosse in particular, where the atmosphere has been so pleasant for us from the start, we want to have personal friends."

Fashions of the Hour
(Fashion note: Corkscrew striped hosiery, in an openwork design, is the latest fad.)
A maiden, her shapely limbs clad in corkscrew stripes, the latest fad, glanced over her shoulder one day, and exclaimed, in tones naughty, "Don't permit your gaze naughty. To go up my spiral stare-way!"

Friday, May 13

Society

MRS. JANET C. BYRNE BECOMES THE BRIDE OF EDWARD GILSON

BEFORE A BANK of greenery in the south bay window of the reception room of the home of Mr. and Mrs. Adolph Canarian on upper Main street, the vows were spoken Thursday night, which united in marriage Janet C. Byrne, daughter of Mr. and Mrs. Joseph Gilson of Chicago, formerly of London, Eng., and Mr. Edward Gilson of Chicago. The bride was attended by Miss Nan Niesz of Chicago, as bridesmaid, and Mr. Robert J. Goll of Milwaukee, as best man.

At half-past six to the strains of Mendelssohn's Wedding March, played by Miss Miriam Harrison, the bride appeared on the arm of her father, who gave her in marriage. Rev. Carver, pastor of the First Presbyterian church, read the solemn vows, using the ring service.

As a setting for the bride, the deep window seat was lined with palms, white trees and bridal sprays, all white pedestals surrounded by bouquets of the bride flowers, being placed at either side. A tall arrangement of salmon pink gaudichet gave a touch of color to the room.

The tables were very pretty and dainty, the color being a delicate green and white. The long receiving table was centered by a large crystal bowl filled with lilies of the valley, which was encircled at the base by a wreath of lilies in willows of white tulle. Surrounding the bowl was a crystal candelabra bearing white tapers, also tied with tulle. Crystal candelabras were placed at the table ends. Places were laid for thirty.

Places were laid for thirty, only relatives and intimate friends being included as guests.

The bride was charming in a short gown of emerald green, trimmed with a crystal fringe of varied length. Her bouquet was a shower of Ward roses with lilies of the valley and streamers of gauze ribbons. The bridesmaid wore a frock of honeycomb crepe, headed in crystal fringes. She carried a bouquet of Columbia roses. The bride's going away costume was of lace and tulle, one of the new shades of gray. It was fashioned with a cape which was lined with turquoise blue satin, the points being finished by large blue tassels. A bag to match finished this handsome traveling suit.

Among the messages of congratulations were telegrams from relatives of the bridegroom in England.

Mr. and Mrs. Gilson left on a mid-night train for Green Lake Springs, Ind., where they will spend their honeymoon. After June first they will be at home at 926 Lawrence avenue, Chicago, where the bridegroom is the resident manager of Merrill Lynch Co. bank.

Mr. Robert Gilmore of Rockford, Ill., was among the out of town guests.

MRS. E. THORPUS of St. Paul is a guest of Mrs. C. Hansberg, 1229 Perry street. Mrs. Thorpus, formerly a resident of Sparta, spent some time in that city before coming to La Crosse, supervising the removal of her household goods to St. Paul, where she will make her home. She leaves Saturday for St. Paul.

Y. W. C. A. basketball girls will hold a candy sale at the Melrose Flower Shop, Fifth and Main streets, Saturday. Proceeds will be used to defray expenses incident to bringing the Winona basketball team to the city for a game last month.

MONDAY NIGHT at half-past six the Young Woman's Missionary society of the First Methodist church had a "Ford Show Out" in the social rooms of the church. Several weeks ago each member of the society was given a small parcel of "Ford" box to be used for a thank offering. The money which is raised by the sale of these boxes will go to a fund to be used to buy Fords for the missionaries to facilitate the canvass of their territory.

Twenty-two guests were seated at a long table, down the center of which was laid a street of emery paper pavement. Moss simulated grass, potted ferns and miniature trees and shrubs were set out along the walk. Traffic signals and small signs, "Keep the Fords Moving," "No Parking Here" and "One Way Traffic" helped to make a very realistic street for the "Fords." The place cards were black paper "Fords" upon which the names were cleverly printed in white.

Miss Grace Ozden proved a capable hostess. Roll call was responded to by "Ford jokes." The following play program was presented:

Raymond Tale of the Thank Offering Ford—Miss Lucille Prizzell.

Humorous talk, How I Bought My Gas Tank—Miss Gladys Schiller.

The Self Starter of the T. O. Ford—Miss Mary Spruill.

Missionary Spirit—Mrs. J. G. Elston.

An original rhyme, "To Our New Members"—Miss Eva Lamley.

Back Fire, by one of the new members—Miss Warren.

Vocal selections—Miss Foxwell.

After a short business session the "opening" of the Fords "closed," an enjoyable and profitable time being had.

THURSDAY EVENING the Misses Lenore and Phyllis Imhoff entertained at their home, 1308 State street, at an announcement party in honor of their sister, Miss Margaret Ruth Imhoff, who is to be married Tuesday, May 24, to Mr. Edward J. Gineux, launchman, who was served at half-past ten at a prettily appointed table which was featured in a pink and white color scheme. Centering the table was a handsome wedding cake handsomely decorated, from which radiated streamers of ribbons to the places, which were laid for twelve. A pink heart knot of ribbon, designated the chair of the bride-elect, and at her

WHIRLING, DASHING CHORUS IN MUSICAL STOCK SHOW AT RIVIERA NEXT WEEK

The beauty chorus in "The Jubilee Girls" musical stock company which opens at the Riviera Monday.

Lillian Bessent and her "Jubilee Girls" will open an extended engagement in musical stock shows at the Riviera theater, beginning Monday night, May 16. Besides Miss Bessent, the cast includes Max Golden, who with Miss Bessent, were recent headline attractions on the B. F. Kiehn vaudeville circuit. Miss Bessent has been called the "Queen of Syncope" and she heads a company that presents the snappiest, classiest musical comedies of the season. In the chorus are girls who are full of class, looks and glimmer, a whirling, dashing, dainty chorus of youth and beauty in gorgeous costumes. Each play is artistically produced, overflowing with originality and wholesome amusement. This fascinating review is constructed on new and novel lines with a world of laughs and sparkling comedy, by comedians who will really make you laugh. The musical shows will be presented in conjunction with exceptionally fine feature pictures. On Monday and Tuesday, at the Riviera, besides the stock company, the Gold-ton Special, "Madame X," with Pauline Frederick in the leading role, will be shown. This picture is made from the famous stage play that created such a furore among theater-goers a few years ago.

U. S. ASKS ITALY TO LEND ENGINEER TO BUILD AIRSHIPS

ROME.—The United States has asked the Italian government to lend to America the services of an engineer skilled in the construction of semi-rigid dirigible airships and several other men to aid in the building in the United States of craft like the Roma, the big dirigible purchased from Italy. The Italian government has granted the request and the Italian engineer, Celestino Uselli, designer of the Roma, will supply plans and instructions for the proposed craft.

It is understood that the Americans have intimated that they would be glad to have the services of Signor Nobili, the builder of the Roma and also her Italian crew to aid in airship building. It is stated that the American airships of the same kind as the Roma are to be five meters shorter than the Italian vessel bought by America, so that they can be sheltered in the American hangars.

Signor Uselli is planning larger dirigibles for Italy. "I intend to start immediately the construction of another dirigible measuring 46,000 cubic meters, the largest that can enter the present Italian hangars," he said. "This new ship will replace the Roma, but will be able to fly without alighting almost twice as long."

"My next great construction will be a super-giant, semi-rigid dirigible for the construction of which I must await the arrival from Germany of three colossal hangars assigned to Italy. I shall then build an airship 220 meters in length, 54 in height and 120,000 cubic meters in volume. It will be equipped with 24 motors of 250 horsepower each, of which only one-third will be in use at a time. The other two-thirds will be kept in reserve so that each motor will work only six or seven hours, and will have from 10 to 12 hours for rest and cleaning."

"This dirigible will be able to fly for ten days consecutively and therefore could make the tour of the world, alighting only once. It will carry 100 passengers besides a crew of 25 and 10 servants and will cost \$20,000,000."

"My chief desire is," said Engineer Uselli, "to demonstrate that a dirigible can fly in any weather and stand any storm, alighting without need of a hangar."

"I also wish to demonstrate that the dirigible is a good business proposition."

Parrots rarely breed in captivity.

HUNGARY PLANS TO TAX THOSE WHO DID NOT SERVE IN WAR

Proceeds to be Used to Care for Disabled Soldiers

BUDAPEST.—Austrians who did not see service in the war are to be compelled to pay a special tax, the proceeds of which are to be devoted to the care of disabled Hungarian soldiers or the dependents of those who were killed in the war.

Hungary has about 250,000 disabled fighting men and, including the orphans, widows and refugees, the government has to provide for more than 1,000,000 persons. This number is about one-eighth of the entire population of Hungary.

More than 4,000 families who fled from Transylvania when that section of Hungary was annexed to Rumania by the peace treaty still are living in railway cars in the various yards in this city. When one family manages to find rooms in Budapest, the vacated car is immediately claimed by newly arrived refugees.

Through the efforts of American welfare missions about 75,000 children are being fed in Budapest alone. Complete outfits of clothing have been distributed to them many times.

HOLMEN CHURCH NOTES

The coming Sunday, which is Pentecost day, services conducted in the Norwegian language will be held in the Lewis Valley church at 10:30 in the morning.

Norwegian services in the Halfway church at 2 o'clock in the afternoon. English Pentecostal services in the Holmen church at 8 o'clock in the evening.

A ladies' chorus will assist in the singing. B. Berrum, pastor.

MEMORIES OF OLD STEAMBOAT DAYS ON RIVER ARE REVIVED

Traffic Between Pittsburgh and New Orleans by Way of Ohio, is Resumed

WONDERFUL MEALS SERVED ON BOATS OF LONG AGO

Gone are Days of Flat-Bottom Toddies on Board Boat

NEW ORLEANS, La.—Memories of old days on the Mississippi when stately packets plied in the passenger traffic are revived by the resumption of traffic between Pittsburgh, Pa., and this city by way of the Ohio. Barges have carried freight traffic on the great river for many years since the boats were driven out by railroad competition. In the days of Mark Twain the Mississippi packets were celebrated for their "cats," their famous races, their pilots and even for their poker games.

It used to be no uncommon sight to see from 15 to 30 passenger vessels, from the palatial packet to the weather beaten tramp leave the New Orleans landings daily for up-river points.

Railroads End River Traffic

Coming of the railroads with quick service for perishable cargo, many lines almost paralleling the river between the most important landings, caused river traffic to lose its prestige. Shippers began sending cotton and other non-perishable freight by rail and the stops of the river packets were fewer and fewer as the years went on.

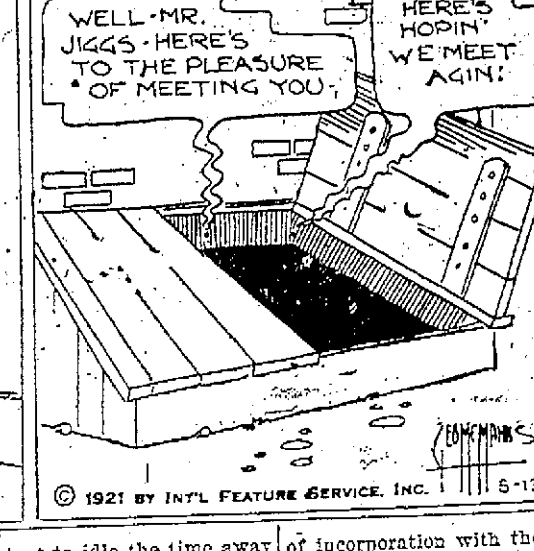

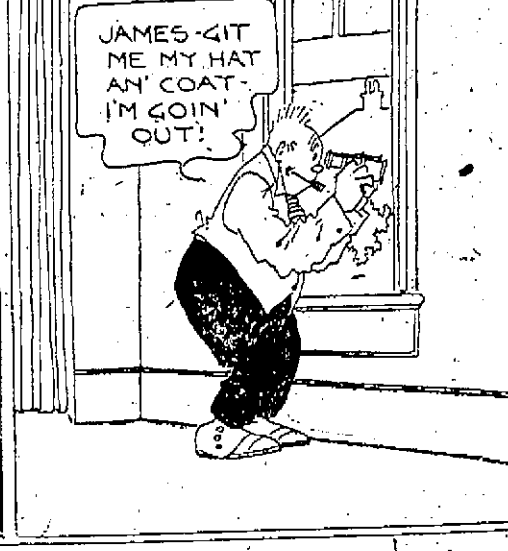

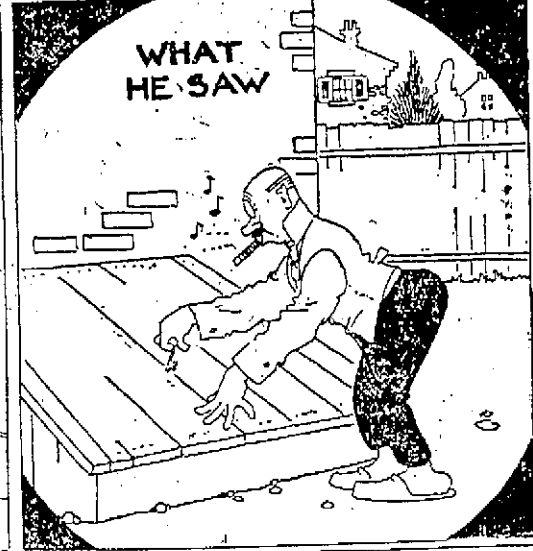

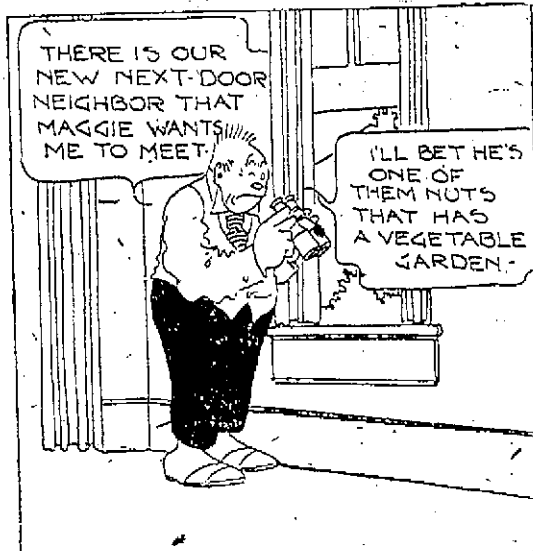

Plantation landings rotted away. Planters began to buy railroad tickets instead of steamer passage and made their plans to spend the difference in time in New Orleans instead of on the boats. Planters moved to town, social life in the country began to wane—in short, country dwellers became farmers and plantations became farms. It was romantic to be a planter, but much more profitable to be a farmer. All of this directly affected passenger traffic.

A river voyage in the olden days was a pleasurable affair if the boats did not blow up or the vessel hit one of the shifting sand-bars, mud-lumps or hidden snags. A comfortable berth, wonderful meals, dancing at night, watermelon parties, well stocked bars, stud and draw poker games for the patrons of that form of amusement, and last, but not least, the antics of the negro roustabouts all combined to make things pleasant for the traveler.

Coffee in Bed

Coffee in bed was the rule, then a breakfast of bacon, eggs, waffles, pancakes started off the day. At noon there was fruit, fish, roast, vegetables, the ever present coffee and whatever desert the cook had in mind for the meal. The feast of the day came in the early evening with some gumbo (if the cook happened

BRINGING UP FATHER

to hail from New Orleans as most of them did), fried fish, roast fowl, with baked or candied yams, beef or pork fruit in abundance, desert and "small black" coffee with brandy. It was not variety but quantity that made the steamer bill of fare famous.

In the heat of the afternoon, behind shielding mosquito bars the passenger, if he so desired, could quaff mint juleps or sip corn whiskey cocktails, not to mention the old flat-bottom toddies, made with sugar, water, pineapples and orange juice and, of course, whiskey. The old timers here, with scanty stocks of liquor and facing the coming years with visions of nut sundae, never tire of telling the younger generation of the old "hard liquor" days of the river steamboats.

The card games were for big stakes. Veterans vouch for the truth of stories of a planter embarking in Mississippi worth a plantation with 200 negroes and disembarking at the Canal street landing in New Orleans with only some bills of lading for something he no longer owned.

But those days are gone. If plans of those interested in river traffic bear fruit, the modern steamers will eliminate gambling carry well drilled crews and furnish modern meals at modern prices.

Only Hard-Boiled Mates

In advertising sailings of vessels of the olden days, the name of the first mate always was given. The first mates became known up and down the river either as good or bad by the manner in which they handled the roustabouts. A meek man did not last long as first mate.

Saturday was usually the sailing day for up-river packets from this port. There was great rivalry between boat owners and crews and usually from one to a dozen boat races were pulled off as the vessels chugged up the river. It was then that boilers blew up with marked frequency.

The most famous of these races was run by the Natchez and the Robert E. Lee, two of the largest of the river packets. So keen was the rivalry that early in the seventies it was planned to have them race from New Orleans to St. Louis. No passengers or freight were carried and for weeks the coming race was the

chief topic of conversation along the river. The Robert E. Lee was in command of Capt. Cannon while Capt. Leathers was master of the Natchez. No stops were made except for fuel. The trip to St. Louis was made in just a few hours over three days, an unheard of record then with the Robert E. Lee the winner by a small margin.

Another famous race between the White Rose of Memphis and the Grand Republic ended, in disaster. After racing upstream for hours in a "neck and neck" contest the White Rose struck a snag and sank. Before the White Rose could clear a nearby bend her boilers exploded, killing a number of the crew.

After the war between the states steamboats had been perfected to a higher degree and river traffic became more important. While most of the boats used wood for fuel, getting it from well established wood-yards along the river, still they made good time and business was flourishing.

While, as a general rule the boats were operated independently by their owners even as early as 1870 there

were several lines, operating many large passenger vessels. The largest and best known was the Anchor line, which operated between New Orleans and St. Louis making regular schedules while another line was operating between St. Louis and St. Paul. The City of New Orleans and City of Baton Rouge were the largest and best known vessels of the Anchor line. The largest side-wheeler operated on the river was the Republic.

In addition to the Anchor line there were several smaller companies operating from New Orleans to Natchez, Vicksburg, Greenville and "The Bends." They usually carried a hundred or so passengers and large freight cargoes. They were mostly side-wheeler. From St. Louis one line operated as far north as Fort Benton, Montana.

Freight from up the river included flour, pork, beef, furniture, hay, cotton, rice and sugar. The largest cargo of cotton ever brought down was landed by the Henry Frank and consisted of 9,000 bales. The cotton was not compressed and the record has stood.

All the old boats were built on the

same general pattern—broad hulls with large spacious cabins above and with wide guards, usually piled high with freight. They were almost always painted white and each was equipped with a whistle slightly different from the others. It was quite an accomplishment, or was so regarded by negroes at the various landings, to be able to distinguish the distant whistling and call the name of the boat.

Promoters now are figuring whether human nature has changed from the olden days, whether a person

will be content to idle the time away on long trips which he could make in a fraction of the time by rail; whether they "have time" to take quiet pleasure.

Freight rates, interstate commerce commission hearings, uniform bills of lading and other prosaic commercial matters figure in the traffic side of the question. The passenger business is regarded as a gamble.

COLUMBUS, O.—The reorganized Goodyear Tire & Rubber company of Akron, Ohio, Thursday filed articles

of incorporation with the Ohio secretary of state. The articles provide for \$140,010,000 of preferred capital stock and 1,500,000 shares of non-par common stock.

Shave With Cuticura Soap The New Way Without Mug

Always right!

LANPHER HATS

The name "Pal-o-Mine" sounds interesting, doesn't it? It's that kind of a hat—lots of character!

FOR SALE BY NELS THOMPSON

"Let me show you how the Adlon is made.

"Note first the rich Havana filler. See how uniform is its quality? Every one of those filler leaves is exactly the same. They're evenly distributed—all lying lengthwise, their stems pointing in the same direction."

"What's the difference, George, how the leaves run?"

"It's done to make the Adlon burn evenly. You get an easy 'draw' from end to end. You'll appreciate this advantage if you've ever smoked cigars that burn down on one side.

"You'll observe, too, the excellence of the binder used in Adlon Cigars.

"The wrapper is fine Sumatra tobacco; the best growth in the world for a cigar wrapper. Notice its fine texture! Its uniform color! That leaf is imported especially for Adlon.

"The blending of these tobaccos produces a remarkably smooth, satisfying smoke."

"Is the Adlon blend different from any other?"

"Yes, indeed! It took many years of careful study and some 500 tests of different tobaccos to create the Adlon blend.

"In all my experience with cigars I have never found one—no matter how high-priced—that is produced with as much care and attention to detail as Adlon. And I started at a cigar-maker's bench!"

"You're pretty well sold on Adlon, aren't you, George?"

"I consider Adlon an extraordinary cigar. When you draw the last puff you're getting the same rare flavor that was there when you lit Adlon."

You can get Adlon—the best cigar you can buy—from any good dealer.

BROOKLYN FIRST SACKER SWINGS WICKED STICK THURSDAY

KONEY NETS HOMER AND TWO SINGLES

Dodgers Pile up Count of Six Runs in the First Inning

NEW YORK NATIONALS DEFEAT ST. LOUIS CARDS

Glazner Pitches First Game for Pirates, Wins 3 to 1

BROOKLYN—The first inning of the game with Cincinnati on Thursday night was a home run and two singles. Koney, a home run and two singles. Score: Cincinnati, 6; Brooklyn, 10. Batteries: Brennan, Rogge and Win-go; Glazner and Krueger.

GIANTS 7; CARDS 5
NEW YORK—The New York Nationals again defeated the St. Louis Cardinals here on Thursday, 7 to 5. In the first inning Kelly hit a home run into the left field bleachers with three men on bases. It was his eighth home run of the season, and the second one with the bases full. The receipts of the game were turned over to the American committee for relief in Ireland. The score: St. Louis, 5; New York, 7. Batteries: Sherrill, Haines, Schupp and Dillhoefer; Sallee, Barnes and Snyder.

PIRATES 3; BRAVES 1
PITTSBURGH—Pittsburgh made six of its seven hits in defeating Boston, 3 to 1, on Thursday. Glazner pitched his first game here and kept the Braves' hits well scattered. He knocked in the winning run in the eighth with a single to center. Score: Pittsburgh, 3; Boston, 1. Batteries: Glazner and Schmidt; Oeschger, Watson and Gibson.

FRANCE TO SEND OFFICIALS TO GO

PARIS.—France will be represented officially at the boxing contest between Georges Carpentier and Jack Dempsey for the world's heavyweight title in Jersey City July 2, the first time in the history of the prizefight that the government of a country has sent an official representative to an international boxing match.

The national touring office is organizing a voyage to New York on a steamer leaving June 18. The passengers on which will partly be the official guests of the government. Gaston Villa, undersecretary of state for physical education, probably will be the government's representative.

The party will live aboard the steamer, which will be docked in Jersey City, and will not sail on the return journey until July 5, in order to enable it to take part in the Fourth of July celebration. The name of the vessel has not yet been made public, but it is understood the French liner Leopoldina will be used.

Kid Elberfeld, manager of the Little Rock Travelers, claims his Indian second baseman is so fast that Ty Cobb would look like a draft horse beside him.

Hoosier Speedway Bubbling With Activity As Date For \$100,000 Classic Approaches

INDIANAPOLIS.—The Hoosier Speedway 500-mile dash for \$100,000 will be held May 20th is bubbling with activity earlier this year than any time in the history of the great Hoosier Classic. A number of the drivers and their cars are on the scene and what is more they are already testing out their cars with a will that would lead one to believe that the contest will be keener than ever this year, and then too, the unusually large purse has an attractive ring that is arousing the working interest of all racing hands concerned. It will be a rich haul for some of those laddies who are tuning up their mounts now.

MAY CLOSE BIG 10 MEET TO OUTSIDE SCHOOLS HEREAFTER

Agitation Started by Several University Coaches to Confine Meet to Big Ten Members

CHICAGO, Ill.—With a large entry expected for the annual track and field games of the western conference on Stagg field June 4, the meet may be confined to Big Ten schools in future years, if agitation started by some of the coaches carries weight. The conference indoor meet always has been confined to Big Ten universities. The outdoor affair has always been open to all institutions in the section, but because of the importance of the national intercollegiate to be held on Stagg field, June 18, with the added expense of making two trips to Chicago, coaches in future years will concentrate on the big meet.

The committee in charge of the national intercollegiate is anxious to hit upon a plan whereby all sectional intercollegiate will be held on the last Saturday in May, so that the country-wide meet can be held on the first week end in June. A rule to this effect may be adopted at the next meeting of the national intercollegiate body next winter.

Hurdles for the Big Ten meet continue to be received by Secretary May (dod in large numbers. The lists will close on May 25.

HOME RUN NO. 10 GARNERED BY BABE

Stick Work of Babe Ruth Enables Yanks to Defeat Tigers, 11 to 10

BURWELL WEAKENS IN EIGHTH AND MACKS WIN

Senators Have Easy Time With Indians, 4 to 1

DETROIT, Mich.—Babe Ruth made his tenth home run of the season in the first inning of Thursday's game against the Detroit Americans, then won the game in the ninth with a triple that scored two runs. The score was 11 to 10. Detroit took the lead in the sixth by means of a rally that netted five runs. Blue and Sargent obtained hits that scored runs while attempting to dodge wild pitches by Quinn, Rath and Schang hit home runs. New York used five pitchers in the contest. Score: Detroit, 11; New York, 10. Batteries: Mays, Ferguson, Quinn, Collins, Sheehan and Schang; Dauss, Halling, Leonard and Bassler.

Macks, 8; St. Louis, 6

ST. LOUIS.—Burwell weakened in the eighth inning on Thursday. Philadelphia scoring two runs after two men were out, and defeating St. Louis, 8 to 6. With the bases full in the seventh, the locals worked a triple seal, Sister reaching home and tying the score. Prior to the beginning of the game the players of both teams and soldiers from Jefferson Barracks participated in a flag raising exercise in observance of National Hospital day. The score: Philadelphia, 8; St. Louis, 6. Batteries: Harris, Keefe, Rummel and Perkins; Kolf, Burwell, Bayne and Billings.

Senators, 4; Tribe, 1

CLEVELAND, Ohio.—Washington came back to form on Thursday and defeated Cleveland, 4 to 1. The locals outbatted the Senators, but were unable to bunch their hits except in the seventh inning, when Graney, a pinch hitter, drove in the champions' only run. Nineteen Indians were retired on fly balls. Score: Washington, 4; Cleveland, 1. Batteries: Erickson and Gburty; Caldwell, Mails and Thomas.

FRANCOIS DESCAMPS OUT LINES PLANS OF FRENCH CHAMPION FOR BOUT WITH JACK DEMPSEY AT JERSEY CITY ARENA

BY FRANCOIS DESCAMPS
LA GUERRE, France.—Carpenter will let Dempsey take the lead during the early stages of the fight on July 2.

He will try to feel out the champion during the first round, drawing him to uncover as many of his boxing tricks as possible. He will fight a purely defensive battle until he gets a line on Dempsey's style.

Between rounds we will decide upon our own plan of attack to meet the champion's game.

Has Line on Jack's Style
We have never seen Dempsey fight, but we have a fair idea of his methods from the pictures of his contests with Jess Willard and Bill Brennan. Of course, we know that the pictures are not the best means of drawing conclusions.

We have heard a lot that the champion was off form in his bout with

JUNIOR SWIMMERS MUST ENTER TODAY FOR SATURDAY MEET

Those who are contemplating entering the junior swimming meet to be held at the Y. M. C. A. Saturday evening will remember that the entries for the event close at the offices of the "Y" at 9 o'clock Friday evening. Although the response to the call for entries has been good, it was announced Friday that a number of additional entries would be appreciated in order to make the event a truly representative meet of the local swimmers of that class. Go to the "Y" office and make your entry for the meet some time today.

TILDEN OFF FOR EUROPE MEETS

NEW YORK.—William T. Tilden, II, international tennis champion, sailed Thursday for Europe to compete in the French and British national championships. Many tennis enthusiasts were at the pier and gave him a rousing farewell. Accompanying Tilden was Arnold W. Jones of Providence, R. I., who is to be the champion's partner in the doubles. In the mixed doubles, Tilden will play with Mrs. Franklin I. Malory, who sailed for France last week.

Newly born cossoms are only about half an inch long.

DEMONSTRATION AT LOCAL HIGH SCHOOL IS BIG SUCCESS

Parents Turn Out in Large Numbers to Witness Demonstration of Gym Classes

RAIN HANDICAPS PROGRAM DANCING NUMBERS CUT

Discipline and Order of Students Participating is Feature

THAT the physical education demonstration put on by the boys and girls gymnasium classes of the La Crosse high school at Elston field and the Annex was a complete success, every department was the unanimous expression of the crowds that witnessed the affair Thursday evening.

While the entire program of twelve numbers consisting of various drilling and marching tactics was to have been staged on Elston field, it became necessary because of the rain for the participants and spectators to retire to the gymnasium for the final half of the exercises. However, there were many more spectators present at the field than could be accommodated in the building.

Although each number drew hearty endorsement from the parents and spectators, the marching tactics by the boys, and the games offered by the girls, proved to be exceedingly pleasing numbers. Each number was executed with the precision that characterizes the work of more advanced students in physical education.

A feature which displayed the discipline and order of the students while under command of the director was apparent when the crowds moved to the gymnasium during the rain. In spite of the crowds surging to the doors, all participants held their places in line until given an order to move. Unfortunately the rain prevented the staging of the dancing numbers, there being insufficient room in the building, and in addition, a piano could not be removed to the gym.

There were in the neighborhood of 640 students participating in the event, and that there was a great deal of interest on the part of parents, was evidenced by the fact that one parent came nine miles to witness the demonstration, having twenty cows to milk after returning home.

Summer ball for collegians is still rolling. The more college coaches discuss it the more "ayes" it gets.

CANADIANS PREPARE FOR SPRING RUSH TO ALBERTA OIL FIELDS

Whole Province in State of Feverish Excitement: Rich Well Brought in

EDMONTON, Alta.—Activity in Alberta in preparation for the spring rush to the oil fields at Fort Norman is gathering headway and the entire province is in a state of feverish excitement.

Transportation companies are having steamers and barges built for operation on the Athabasca, Slave, Peace and Mackenzie rivers and the Mackenzie river.

One company is building a steamer to be used for the purpose of taking lumber to the oil fields at Fort Norman, and another is building a barge for the purpose of taking oil to the oil fields at Fort Norman.

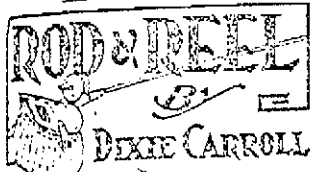

Some of the companies for chartering boats are in Alberta and points to do business in Alberta and points to do business in Alberta.

Now, the companies are being organized daily and in some Canadian cities, boats are being ordered to have been ordered in Toronto, and are being ordered in Toronto.

By far the greatest activity is centered at Fort McMurray, on the Athabasca river, north of Edmonton, where many boats are being built.

Fort McMurray is the center of the oil fields at Fort McMurray, and many boats are being built.

Fort McMurray is the center of the oil fields at Fort McMurray, and many boats are being built.

HOW TO HOOK THE WORM

For this game of still fishing the worm is used as an inviting lure. It is not a bait, but a lure. It is not a bait, but a lure. It is not a bait, but a lure.

The worm is used as a lure. It is not a bait, but a lure. It is not a bait, but a lure. It is not a bait, but a lure.

The worm is used as a lure. It is not a bait, but a lure. It is not a bait, but a lure. It is not a bait, but a lure.

CARPENTIER WILL WIN! SO SAYS "J" DOPE

Study of the names of heavyweight champions dating back to John L. Sullivan, reveals a cycle of winners which might be termed "J" champions. In all the names of the simon-pure title holders, except Robert Fitzsimmons, the letter "J" appears. And the unwinding of that letter "J" cycle favors Georges Carpentier to be the next heavyweight champion of the world. Following Paddy Ryan the letter "J" appears once in John L. Sullivan's name; once in Jake Kilrain's; twice in James J. Corbett's; was challenged by Sullivan and lost his fight; twice in James J. Corbett's; was challenged by Sullivan and lost his fight; twice in James J. Corbett's; was challenged by Sullivan and lost his fight.

P. RYAN beat Joe Goss in 37 rounds and claimed the title in a battle at Collier Station, W. Va., May 30, 1889.

L. SULLIVAN knocked out Paddy Ryan in 9 rounds at Mississippi City, Miss., Feb. 7, 1892.

KILRAIN was challenged by Sullivan and beaten in a 75-round fight at Richmond, Miss., July 8, 1889 (the last bare knuckle championship heavyweight fight).

J. CORBETT defeated Sullivan in 21 rounds at New Orleans on Sept. 7, 1892. (Robert Fitzsimmons, the exception to the "J" cycle of champions, defeated Corbett March 17, 1897, in 14 rounds at Carson City, Nevada).

J. JEFFRIES beat Fitzsimmons on June 9, 1899, at Coney Island, N. Y., in 11 rounds. In 1905 Jeffries retired and gave his title to Marvin Hart. By 1908 Jack Johnson, the negro, had climbed to the top of the heap in the heavyweight division.

JOHNSON knocked out Jeffries in 15 rounds July 4, 1910, at Reno, Nev. Jeffries was trying to come back.

WILLARD knocked out Johnson in 26 rounds at Havana, Cuba, April 15, 1915, bringing the title back to the white race.

DEMSEY won the title from Willard by a knockout in three rounds at Toledo, Ohio, on July 4, 1919.

G. CARPENTIER? There's no "J" in his name. Yet he fits in at the end of the "J" cycle of champions as Paddy Ryan did at the start of it.

a nip of the worm about a third of the distance from one end of the worm, then slip along and nip him again about a third of the distance from the other end of the worm, thus leaving two loose ends to wiggle and twist around the shaft as they will. If there is any sophisticated bass that can resist these teasing worm curls, he must have dyspepsia or housemaid's knee.

Of course, in fishing via the still, the real thing is to locate the bottom with a snooker, and then fish about a foot and a half above the bottom. As the fish have their eyes toward the top of the head and are in the habit of locating their food above them you are sure to attract their attention.

To know that you are playing the bait at about the right depth it is well to knot a small piece of red yarn at the point of the line at the surface as indicated when the snooker is locating the bottom for you. Let your bait down to the desired depth and then give a friendly little jiggle up and down every now and then with a slow sweeping movement from side to side, not swift at all, but just a natural little movement to keep it of interest to the overfed game fish lying down there below.

LOOK OVER COLLEGE

PHILADELPHIA, Pa.—Three big league scouts are after Bill Marshall's signature. Bill is the William and Mary college star pitcher. He is 6 feet 2 inches tall and weighs 190.

LEFT EARFUL

The crop of youngsters from the brush.

Who've made the big league clubs, Are making many of the vets Look like a bunch of duds.

RIGHT EARFUL

The hit that every fan likes most Makes the owners wail— The hit in which the ball comes down Behind the grandstand rail.

Will Use Twelve Traps in Grand American Handicap

By PETER M. CARNEY

Twelve traps will be in operation when the Grand American Handicap — takes place at the South Shore Country Club, Chicago, Ill., in August. Previously when the Grand American was held at the South Shore Club ten traps were used. Nine of the 12 traps will be erected on the beach front between the main club house and the shooting lodge. The other three will be to the north of the shooting lodge. These three traps are now used by club members. The two traps in front of the shooting lodge will be used for practice events, for the instruction of beginners, and for special events. Judgments are that this will be the greatest Grand American ever held. With the railroads cutting back the shooters and offering reduced railroad fares there should be no question about the 1000 entries. And to prove that this will be a record breaking trapshooting season, we want to tell you that 1448 club tournaments and 340 registered tournaments had been sanctioned by the American Trapshooting Association up to April 25.

YEP! CONNIE PROSPERS

PHILADELPHIA.—Connie Mack made \$300,000 out of his cellar ball club last year. He'll make more this season. In the first series of the Athletics against the Yanks Connie pocketed \$20,000. Yet Connie lost money on his 1914 world beaters.

JONES IS TECH JUNIOR

ATLANTA, Ga.—Bobby Jones, who has received special leave of absence from Georgia Tech to play golf in England, is a junior in the mechanical engineering department. He had to do a lot of "boning" in order to get the leave.

MORAN GETS THE BULL

DANVILLE, Ky.—Coach Charley Moran is to get a shorthorn bull he couldn't buy for signing to return to coach little Centre college's eleven. Guy Humbley, wealthy cattleman, will ship the bull to Horse Cave, Ky., immediately.

An Austria claims to have unearthed a running horse who is as speedy a bag as the Man of War.

Every swimming title but one among the women swimmers has changed hands in 1921.

Carpentier should select sparring partners who are big, rushing fighters and who can hit like a Missouri mule can kick.

Greasy Neale is the 19th football coach Washington and Jefferson has had since 1890.

DEMSEY PLUNGES INTO TRAINING FOR TITULAR BATTLE WITH FRENCH CHAMP; TITLE HOLDER CHERISHES KAYO HOPES

ATLANTIC CITY, N. J.—Jack Dempsey Wednesday plunged into the routine of his training activities and now has no thoughts other than his coming titular engagement with Georges Carpentier at Jersey City on July 2.

The heavyweight champion breathes, eats, sleeps and dreams of the fight. Dempsey attended the weekly luncheon of the Atlantic City Rotary club Tuesday at noon, which was his last social function until after the grand slam. He left the camp at the earnest solicitation of Mayor Edward L. Dader. All other invitations from now on will be declined. Terry Hayes, the champion's secretary, Wednesday refused two audiences with motion picture men regarding future contracts.

Hopes For Knockout

Dempsey cherishes the hope for a knockout. He declares he won't be satisfied with any newspaper decision. The champion makes no secret of his ambition to win decisively and will go in the ring with the intention of wading right in with the opening gong. Dempsey believes that the length of the bout will be determined by the method of attack undertaken by the Frenchman, no matter who the winner will be.

Legion Passes Jack Up

There was one jarring note Wednesday. The Atlantic City post of the American Legion extended a special invitation to Georges Carpentier to train in the resort, but ignored Dempsey. A committee, headed by Paul Savard, who is a wounded veteran of the French army, will meet with the French boxing champion when he arrives on the Sarvo next Sunday.

The criminal is the only vessel which become white in winter.

IN THE DAYS OF KINGS

The dandy of the time of Charles II wore expensive plumes in his hat, often set off with gems of extraordinary value.

In this age when kings have been thrown into the discard the Gordon Hat gives the particular man all the distinction any hat can give.

There are some unusually attractive colors shown in Gordon Hats this season—you'll like them.

Gordon Hats

INSIDER SAYS

Wilbert Robinson is a fat prophet. He told the world that the Robins were a ball club when his "Big Six" pitching staff hits its stride.

Stanislaus Zyzsko has had 986 grappling matches. He says he'll be champ after meeting Lewis in May. Zyz ought to be old enough to know.

The Jamaica Kid ought to put a lot of ginger into Dempsey's training.

St. Louis fans are now wondering why two ball clubs from the same town play the same kind of ball.

Left Earful. The theory of the lively ball. No longer's diamond talk. This spring the boiler's coming from Golf bugs who hate to walk.

Right Earful. The pitcher who can sock the pin. And fatten up the score. Is headed for the record win. Of thirty games or more.

The Market Basket Today is of Particular Interest to Thrifty Buyers

JUDGE LUSE GRINDS OUT MANY CASES AT SUPERIOR WITH OLD OFFENDERS UP

Simon Magatine, arrested at Superior when he attempted to steal a car with a market basket containing a gallon of moonshine covered with vegetables, was fined \$500 by Judge Claude Z. Luse in United States court here. He had been sentenced for a similar offense in federal court at La Crosse.

A motion to dismiss the case against William Blumski, South Superior resident, who was arrested on a liquor violation charge, was granted by Judge Luse. Both the district attorney and prohibition agents recommended the motion.

Henry Stein, Rice Lake, Wis., was fined \$100 for alleged violation of the penal code when he entered a plea of guilty. Stein is a dealer in furs and wool. It was alleged that he violated the law when he received a large shipment of deer hides from a

Duluth fur company. He was fined \$50 on the two counts in the indictment.

Smallest Fine Imposed

Judge Luse reached the low level of fines when he ordered Albert Borrows, Spooner, Wis., to pay a fine of \$1 after he had pleaded guilty to a charge of possession of moonshine.

"Go home," ordered Judge Luse to the defendant. "And never again have anything to do with moonshine in any form."

Borrows is a farmer and was unable to pay a larger fine. United States District Attorney William Dougherty recommended the smallest of fines.

Case Dismissed

Because Carl Henning, federal prohibition agent, failed to secure a search warrant when in company with

Police Captain William Mead and Detective Martin Widness, a raid was made on the residence of Thomas Ryan, Superior, the case against Ryan was dismissed in court this morning.

First Jail Sentence

Adam Wajack of Ashland, indicted by a federal grand jury on a charge of passing raised United States currency and sentenced Thursday to 60 days at the Douglas county jail, was the first man upon whom a jail sentence has been imposed by Judge Luse since his appointment to the federal bench. It was claimed that Wajack passed a \$2 bill raised to \$20 at Ashland.

Woman Fined for Beer

Mary Sullivan, 331 John avenue, entered a plea of guilty to having 150 bottles of home brew and a small quantity of whiskey in her possession. She was fined at the rate of \$1 for each bottle of home brew. Her fine of \$150 was paid in court.

GOPHER "U" TODAY INAUGURATES ITS NEW PRESIDENT

Prominent Educators from Other Universities Present for Ceremonies

MINNEAPOLIS, Minn.—Lotus Delta Coffman was formally inaugurated as president of the University of Minnesota Friday. Prominent educators from various colleges and universities in the country were here for the ceremony.

The program opened with a procession of guests, delegates and faculty members, from the library building to the armory, where exercises were held. Fred B. Snyder, president of the board of regents, presided.

Presentation of the president was made by Mr. Snyder, following which

Mr. Coffman delivered his inaugural address.

Review of the university military units followed.

In the afternoon there was an educational conference.

A dinner Friday evening at the university farm school will close the day's program.

FORTY KILLED IN MEXICAN FIGHTING

MEXICO CITY.—(By The Associated Press).—Fifty persons were killed and a score wounded Thursday night in Morelia, capital of the state of Michoacan, say reports to the Excelsior, which police, aided by unsolicited help from radicals, charged a large group of Catholics.

PORTLAND FIRM SENDS WHEAT TO EUROPE

PORTLAND, Ore.—The Northern Grain & Warehouse company Friday announced the charter of the oil tanker Swiftscoot to carry Portland wheat to Europe. The tanker will start loading Monday. The wheat will be in sacks.

STATE ROAD BODY FAVORS BRIDGE AT PRAIRIE DU CHIEN

MCGREGOR, Iowa.—The movement to build a highway bridge across the Mississippi between McGregor, Iowa and Prairie du Chien, Wisconsin, is now run regularly between the receiving the active support of the Wisconsin highway commission. A communication recently received from

the commission stated that bills were before both the Wisconsin and Iowa legislatures to permit the use of highway funds in building state bridges. The letter also stated that a bridge between Prairie du Chien and McGregor was a very important link in inter-state highway connection and the commission would do all it could to further the project. Two ferries are now run regularly between the towns and four at rush times to handle the auto and passenger traffic.

LEGISLATURE ENACTS FEW LAWS AFFECTING HUNTING AND FISHING

MADISON, Wis.—Legislation affecting fish and game has practically been completed for this session of the legislature, with few new laws enacted, according to Mark Catlin, chairman of the assembly fish and game committee.

Most of the bills have been corrective in effect, Catlin stated, with the idea foremost that the fish and game reserves of the state belong to all the people. A bill has been passed which insures an open highway to all Wisconsin lakes and reserves shoreline around the lake for the general public.

"Rich men will no longer be able to buy up Wisconsin lakes and convert them into private fisheries as a result of this law," declared Catlin.

It is also very likely that the present legislature will endorse the one buck law, prohibiting the shooting of bucks under one year. At present, hunters are not allowed to shoot a doe, but a bill to permit shooting does on alternate years is under consideration.

Two bills to change the open season for deer so as to make the Wisconsin regulations correspond with those of Michigan and Minnesota are before the legislature and are expected to pass.

Another bill has been passed which establishes legal game refuges in Wisconsin for the protection of native birds and animals. This is the first time that a Wisconsin legislature has recognized this principle of protecting game, according to Catlin.

The law dealing with partridges has been opened up for four days in October, the duck season has been lengthened to December 20, and the goose season to December 20.

Pheasant, quail, snipe, mallards and other birds have been taken out of the rough fish class and hoop and fyke net fishing prohibited.

PROTEST FINCHER BILL
WASHINGTON.—A flood of telegrams protesting against the Fincher bill to regulate dealing in futures on grain exchanges was received Thursday from various members of the Chicago Board of Trade by Illinois representatives and republican leaders in the house. A final vote on the bill is expected today.

The rainfall around the Caspian sea is only ten inches a year.

UNDER THE CAPITOL DOME

Odds and Ends of State Affairs by William J. Anderson

MADISON, Wis.—The state insurance department is at present sending out to three hundred and sixty cities and villages their portion of the fund received in the form of a tax upon the net premiums of fire insurance companies operating in the state. There is, under the law, paid to the state insurance commissioner each year by fire insurance companies 2 per cent of the net premiums collected by them, and this sum which this year aggregates \$243,527.65, is apportioned to cities and villages which maintain paid fire departments. The sum apportioned to the three hundred and sixty cities and villages ranges from \$5 to \$75,000, the latter being the sum paid to the city of Milwaukee. In many cases the amounts paid to cities are added to the pension funds instead of being used for maintenance expense.

This year \$17,645 of the total amount is being held up pending reports from certain cities as to whether their equipment for the current year for fire fighting meets the requirements of the law.

The eleven free employment offices which are conducted by the industrial commission made 93,000 certified placements last year. The largest number of these placements were of common laborers and factory hands, but there were also many placements of mechanics and of high skilled employees, salaries running as high as \$2,000. During the present depression the number of placements has considerably declined, but more than five thousand persons are still being placed in employment each month through these eleven employment offices. As a result of the depression there has been a very great increase in the number of men placed on farms. In April, 1,000 men were sent to farms through the employment offices—the largest number in any month since the employment offices were organized, nearly 20 years ago. The free employment offices of the state are located in Ashland, Green Bay, La Crosse, Madison, Milwaukee, Oshkosh, Racine, Rhinelander, Sheboygan, Superior and Wausau.

The board of public affairs and the legislative joint committee are traveling over the board of control, the university and the normal school appropriations at the present time. These three appropriation bills represent more than two-thirds of the state's

entire budget. The biennial needs of the board of control alone, including capital expenditures and maintenance is about \$7,500,000.

The fireworks order of the industrial commission against illegal storing and sale of fireworks has been enforced since 1919. As a result not a single life has been lost in Wisconsin from the use of fireworks on the Fourth of July, during the year 1919 or 1920. There also have been practically no fire losses due to fireworks during the last two years. This record is not matched in any other state. Only recently there was an explosion in Chicago of fireworks illegally stored which cost six lives and a fire loss of several hundred thousand dollars.

Summing up a discussion of what students from outside the state cost the university, Business Administrator Thorpe of the University, says, "The average cost per student for the operation and maintenance of the university, including ordinary capital, for the five years of 1915-19 to 1922-

McKibbin hats

McKibbin dealers everywhere

22, may be stated as approximately \$300, while the excess cost due to the presence of non-resident students may be given as approximately \$150.

The board of control groceries contract for the current quarter aggregates \$2,053 for teas and coffees, and \$10,125 for other groceries. The next contract will be let in about six weeks.

ASSEMBLYMAN RUNS FOR MAYOR IN KENOSHA
KENOSHA, Wis.—Malcolm Parr, Kenosha county representative in the lower house of the legislature, Thursday announced that he was a candidate for mayor of Kenosha. The election is to be held in April of next year. At the same time announcement was made that John M. Scholey, known as the Kenosha crusader on account of his activity in battling illicit liquor trade, would be a candidate.

MAXWELL COMPANY SOLD
DETROIT, Mich.—Sale of the Maxwell Motor company by auction as ordered by United States District

Judge Tuttle some time ago to provide for reorganization of the company with the Chalmers Motor company, was consummated Thursday afternoon. The property was acquired by W. P. Chrysler of New York, chairman of the reorganization committee of the two concerns, and Harry Bronner of New York, a member of the committee. The sale price was \$10,915,100.

Is There Anything Wrong With The Girl of Today?

Is "the old-fashioned girl" with all that she stands for in sweetness, modesty, and innocence, in danger of becoming extinct? Or was she really no better nor worse than the "up-to-day" girl—who in turn will become "the old-fashioned girl" to a later generation? It is even possible, as a small but impressive minority would have us believe, that the girl of today has certain new virtues of "frankness, sincerity, seriousness of purpose," lives on "a higher level of morality," and is on the whole "more clean-minded and clean-lived" than her predecessors. According to the New York American, there is a statute pending in Utah "providing fine and imprisonment for those who wear on the streets skirts higher than three inches above the ankle. The Philadelphia moral gown, with its seven and a half inches of 'see level,' as one visitor called it, would cease to be moral in Utah if this law goes through." In various other states legislation has been passed or is being drafted to regulate women's dress that is almost as drastic as the Utah law.

A number of organizations are unusually active throughout the country on the ground that there is an unusual amount of immodest dressing and conduct upon the part of women. The Young Woman's Christian Association is conducting a national campaign among high school girls, and through its press department supplies newspapers with material which appears under such suggestive headlines as "Working Girls Responsive to Modesty Appeal"; "High Heels Losing Ground in France"; and "It Isn't What the Girl Does; It's Just the Way She Does It," etc.

THE LITERARY DIGEST, by way of gathering national sentiment on the whole question, lately addressed a circular letter to the religious editors of the country, to the presidents of colleges and universities, and to the editors of college papers, asking for their opinions upon the charges of lax standards which have been freely made throughout the country. These replies have been correlated with material on the same subject collected from newspapers and magazines in THE DIGEST office, and the results are presented in an exceedingly interesting article in the May 14th issue. It includes several unique illustrations showing proper and improper styles in dress, how the fox-trot is danced in London, and specimens of advance summer models that will be worn in Paris, London, Vienna, Brussels, and New York this summer.

United States Senator Miles Poindexter says:

"I find The Literary Digest of very great value, in fact almost indispensable, as a means of keeping informed on live current questions within the entire great field which it covers. It is particularly useful in its digest of foreign public opinion as it finds expression in papers and magazines, and I have had occasion more than once to make use, in the Senate, of its digest of such foreign comment."
